Well, I have the perfect origami to teach you. A box for origami cats! Finally you have a cat that can be helpful and obedient! I'm joking, I'm joking. The origami cat box is not hard to fold at all, and the hardest part is the draws on the side. If you're not artistic, your cat will end up disproportionately like mine, It's still nice. :3 Step 1: Start with a square piece of origami paper. If you only have a regular 8.5×11 paper, follow these instructions to make a square sheet. Step 2: Fold the top left left into the lower right corner, and then unfold. Step 3: Now fold the top right corner into the bottom left corner and then turn. Step 4: Fold the top half back (where the folds meet on X) and then unwrap, but don't smooth it out. Step 5: Finger, poke into the center, and it should pop in. Step 6: Bring the left and right folds to the center to roll the shape into a triangle. Step 7: Turn the shape so that it flips over. Step 8: Fold the top layer of the left flap to the right, fold the center well, then fold back. Step 9: Fold the bottom corner up into the triangle, as shown in the photo, and then unwrap. Step 10: At the angle of the triangle folds, fold both layers on the left side and then unwrap. Step 11: Repeat on the right side. Step 12: Fold the top layer of both sides to the vertical fold and then expand. Step 13: Open the left flap at the crease and crush down. Step 14: Repeat the squash once on the right valve. Gay Merrill Gross combined two traditional origami figures - a cat's head and a Sanbo box, and designed this delightful origami box cat box! This two-piece origami cat-box is the perfect model to fill with candy or other small items to give away as a gift for a festive event. The head and body are locked securely, so there is no need for glue or fastening. Using Gay's idea as a springboard for one of mine, I was inspired to design another version of the cat-box. I'll be presenting this version here at Origami Spirit in an upcoming post. The next step-by-step video shows how to make a cat gay. Thank you Gay for giving permission to present your model. Tips and suggestions for making origami cats Using thin paper such as kaami. Two squares of paper are needed, one for the body and one for the head. The side of the square used for the head should be half the side of the square used for the body. A 6 x 6-inch (15 × 15cm) sheet of paper or more is perfect for the body. 3 x 3-inch (7.5 x.7 cm) sheet of paper is appropriate For the head. Only one side of the paper is shown on the body. There is no need to use paper with different colors on each side. Head Head show both sides of the paper. For great effect, use paper of different colors on each side...
