JOIN THE CHINAGATEWAY™ SERIES

The ChinaGateway™ Series is purpose built by Triangle Innovation, the innovation and capability building division of Triangle Equity Partners Pty Ltd, to prepare established WA-based businesses to ready themselves to connect with, enter and export to the largest market in the world, Greater China.

The ChinaGateway™ Series has been built out of deep experience in over 200+ cross-border transactions. This experience recognises that any cross-border transactions, especially with Greater China, needs to cut through the white noise that such a large and complex market presents.

ChinaGateway™ Series leverages people with proven knowledge and track record combined in-country partnerships (including TusStar (domestic and international accelerator/incubator arm of TusHoldings) that will equip the companies through sharing experiences, lessons learnt, real case studies and delivered in a practical approach (not just theory).

ChinaGateway™ Series partners will provide guidance as to the best growth sectors to target and connect with, that will be used to help filter and select each program(s) cohort. They also have the wherewithal to connect to strategic partners, strategic investors and other forms of capital (eg. VC).

ChinaGateway™ Series will bring international guest speakers from Greater China, each highly respected specialists in critical areas such as innovation and commercialisation across Greater China industries, corporate finance and investment and other growth sectors.
