MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is an established food and beverage grocery distributor in Hong Kong with over 40 years of experience in the food and beverage grocery distribution industry. The Group's customers include restaurants, non-commercial dining establishments, hotels and private clubs, food processing operators and wholesalers in Hong Kong. The Group also offers product sourcing, repackaging, quality assurance, warehousing and storage, transportation as well as other value-added services to provide one-stop food and beverage grocery distribution solutions to the customers. The Group's product portfolio widely ranges from food commodities, specialty food ingredients to kitchen products which can be broadly categorised into (i) commodities and cereal products; (ii) packaged food; (iii) sauce and condiment; (iv) dairy products and eggs; (v) beverage and wine; and (vi) kitchen products.

On 13 April 2017, the Shares were successfully listed on the GEM (the "Listing") when 322,000,000 shares were allotted and issued at HK\$0.23 each. The Group's business model, revenue structure and cost structure basically remain unchanged after the Listing. Based on the unaudited financial information of our Group, our revenue was approximately HK\$98,605,000 for the six months ended 30 September 2019, representing a slight increase of approximately 5.6% as compared to approximately HK\$93,352,000 in the corresponding period of 2018.

Year 2019 was a difficult period for Hong Kong's food and beverage industry as a whole. The industry faced a lot of challenges such as the high upfront costs, skyrocketing rentals and increasing labor costs, as well as difficulty in retaining talent in an increasingly competitive market. Therefore, during the six months ended 30 September 2019, the Group consistently adhered to the principle of maintaining profitability while striving for better results, and continued to step up its efforts in controlling expenditure, and at the same time enhancing its presence in the food and beverage grocery distribution market by devoting more resources to sales and marketing activities and actively facilitating the business development of new products. Despite this, the Directors expect that the competition of the market will continue to be intense.

FINANCIAL REVIEW

Revenue

During the six months ended 30 September 2019, our revenue increased by approximately HK\$5,253,000 or approximately 5.6% to approximately HK\$98,605,000 (six months ended 30 September 2018: approximately HK\$93,352,000), mainly due to increased demand from our customers as a result of successful sales campaign.

Cost of sales

Our cost of sales solely represented cost of inventories sold, which represented the cost of finished goods purchased by us from suppliers. Our cost of sales represents the costs of products, net of discounts and rebates, charged by our suppliers. Our cost of sales increased by approximately HK\$3,609,000 or approximately 5.1% to approximately HK\$74,595,000 for the six months ended 30 September 2019, as compared to approximately HK\$70,986,000 for the six months ended 30 September 2018, due to increased sales volumes, offset by cost efficiencies in cost of finished goods purchased from direct manufacturers and end suppliers.

Gross profit and gross profit margin

The Group's gross profit increased by approximately 7.4% from approximately HK\$22,366,000 for the six months ended 30 September 2018 to approximately HK\$24,010,000 for the six months ended 30 September 2019. The increase in gross profit was due to our enlarged customer base to high-end customers and lower cost of goods purchased from suppliers. For the six months ended 30 September 2019, the Group's gross profit margin increased to 24.3% as compared with the same period in 2018 at 24.0%.

Other income

Other income consisted of interest income from bank deposits and sundry income. Other income increased from approximately HK\$163,000 for the six months ended 30 September 2018 to approximately HK\$246,000 for the six months ended 30 September 2019 mainly due to increase in interest income from fixed bank deposits.

Other gain and losses, net

The Group recorded net losses of approximately HK\$926,000 for the six months ended 30 September 2019, which was mainly attributable to the loss on disposal of items of property, plant and equipment. Since the Group reallocate its headquarters and principal place of business to newly rented office and warehouse in Yau Tong in May 2019, the Group disposed items of property, plant and equipment which included leasehold improvement, plant and machinery and furniture and equipment in the existing offices and warehouses in Kwun Tong during the period.

Selling and distribution expenses

Our selling and distribution expenses mainly comprised transportation expenses, commission expenses to sales persons based on a certain percentage of the gross profit on successful sales, staff costs for our sales team, advertising and marketing expenses. The increase of selling and distribution expenses of the Group were in line with the revenue increment and were mainly due to the increase in commission and bonus to sales persons and transportation expenses. The selling and distribution expenses accounted for approximately 11.5% and 10.7% of the total revenue for the six months ended 30 September 2019 and 2018 respectively.

Administrative expenses

For the six months ended 30 September 2019, the Group's administrative expenses primarily comprised legal and professional fees, rent, rates and management fee for office and warehouses, staff costs for administrative and management personnel, directors' remuneration, depreciation and insurance. Administrative expenses increased from approximately HK\$11,270,000 for the six months ended 30 September 2018 to approximately HK\$12,151,000 for the six months ended 30 September 2019. The increase of administrative expenses of the Group was mainly due to the increase in salaries of administrative staff. Also, the Group renovated and purchased new furniture and equipment for the new office and warehouse which incurred additional depreciation.

Finance costs

Finance costs of approximately HK\$4,000 for the six months ended 30 September 2019 represented interest expenses on obligation under finance lease incurred for a truck purchased.

Income tax expense

For the six months ended 30 September 2019 and 2018, our income tax expenses were approximately HK\$144,000 and HK\$512,000, respectively.

(Loss)/Profit and total comprehensive (expense)/income attributable to owners of the Company

For the six months ended 30 September 2019, the Group's loss and total comprehensive expense attributable to owners of the Company was approximately HK\$302,000. For the six months ended 30 September 2018, the Group's profit and total comprehensive income attributable to owners of the Company was approximately HK\$737,000. The decrease of profit and total comprehensive income attributable to owners of the Company was mainly attributable to the loss on disposal of items of property, plant and equipment and increase in selling and distribution expenses offset by increased revenue. Since the Group reallocated its headquarters and principal place of business to newly rented office and warehouse in Yau Tong in May 2019 and disposed large amount of items of property, plant and equipment in the existing offices and warehouses in Kwun Tong, therefore, a one-off loss on disposal of items of property, plant and equipment amounted to approximately HK\$927,000 was recorded during the period.

Dividend

No dividend was paid, declared or proposed during the period. The Directors do not recommend the payment of any dividend for the six months ended 30 September 2019 (six months ended 30 September 2018: nil).

LIQUIDITY AND FINANCIAL RESOURCES

Looking forward, the Group will further enhance the capabilities of offering a wide spectrum of products for customers and continue to exercise careful cost controls to withstand the keen competition in the food and beverage grocery distribution industry.

As disclosed in the prospectus of the Company dated 31 March 2017 (the "Prospectus"), the Group's principal business objectives are to strengthen its position in the food and beverage grocery distribution industry and further expand its business operations with a view to creating long-term shareholders' value. The Directors intend to achieve the objectives by (a) increasing warehouse facilities strategically located in certain districts of Hong Kong in proximity to the Group's customers; (b) upgrading the ERP system to enhance the Group's operation efficiency; (c) further penetrating the food and beverage grocery distribution market through sales and marketing activities and the Group's quality value-added services; and (d) attracting and retaining quality personnel.

In light of the rise in number of customers and purchase orders, the Group had planned to lease two warehouse facilities, one in the New Territories and another on the Hong Kong Island for accommodating the increased inventory level. However, since the second half of 2017, the rent and the rent price index in the factory building rental market in Hong Kong showed a continuous uptrend and the Group had not yet identified suitable premises for the warehouse facilities in both areas, therefore the leasing was not yet commenced up to March 2019.

In early 2019, the Group surveyed a premise in Yau Tong, Kowloon, which size and location are suitable for our warehousing, and additionally, the proposed rental fee is relatively cost-effective. The Board evaluated that the premise in Yau Tong, Kowloon is meeting the Group's requirements for fair and efficient use of financial resources. Therefore, the Board had decided to establish a new warehouse at the above mentioned premise and migrated all inventory from the existing warehouses to the new location. As at 30 September 2019, a total of approximately HK\$6,103,000 was spent on rental deposits, rental payments, renovation costs and start-up costs for the warehouse facility.

The Group had planned to use approximately HK\$12,560,000 of the net proceeds to upgrade the ERP system, which is used to monitor the inventory level and minimise incidences of overstocking, so as to enhance the operational efficiency of the Group. As at 30 September 2019, the Group selected a new ERP software for implementation and a total of approximately HK\$3,000,000 was spent on consultancy services and software and hardware acquisition for the upgrade of the ERP system.

The Group had planned to use approximately HK\$5,540,000 of the net proceeds to conduct sales and marketing activities to attract more customers and strengthen customer loyalty so as to further penetrate the food and beverage grocery distribution market. As at 30 September 2019, a total of approximately HK\$422,000 was spent on participating in domestic food exhibition and sales exhibition to showcase our products to potential buyers. The Group is currently recruiting new marketing staff for upcoming new sales campaign.

The Group had planned to use approximately HK\$3,500,000 to purchase new repackaging equipment to further automate the repackaging process and increase efficiency. As at 30 September 2019, a total of approximately HK\$237,000 was spent on purchasing new automatic repackaging machines. The Group will continue to install more repackaging equipment and develop packaging design.

The principal strategic, operational and financial risks faced by the Group are market competition, employee commitment and satisfaction, warehouse disruption, credit risk of customers and fund investments and returns. With the Group's proven track record, plus its experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors. The Directors will also continue to explore opportunities to diversify the Group's operation so that the customer base could be strengthened and diversified. The Directors will continue to review and evaluate the business objectives and strategies and make timely execution taking into account the business risks and market uncertainties. The Directors believe that the Group will continue to expand to become one of the leading food and beverage grocery distributors in Hong Kong.
