

Rafter V Ranch

Health Guarantee

1. The puppy is guaranteed to be in good health at time of sale.
2. The puppy will be up to date on vaccinations and worming at time of pickup. It is very important that you continue the vaccination and worming. Please do not expose your puppy to other dogs until he/she has completed the entire vaccination schedule – around 16-20 weeks of age.
3. The puppy will have been vet checked and deemed in good health at time of sale.
4. This health guarantee does not cover any health issues caused by neglect or injury from the buyer.
5. This guarantee does not include any minor illness or health issues such as colds, allergies, internal or external parasites or hernias. However the breeder will disclose any known illness or health issues prior to the sale.
6. The breeder assumes no responsibility for any medical expenses incurred after the sale.
7. The breeder does not assume any responsibility for training difficulties or behavioural problems.
8. The breeder does not guarantee size. We will give the buyer the weight of the puppy's parents and the weight of other puppies out of the mating. We can give the buyer an educated guess as to full grown weight and height, but there are too many variables besides genetics.
9. This puppy is sold strictly on a "Pet Only" registration. No breeding rights have been given.
10. Proof of spay/neuter must be provided to the breeder by 8 months of age unless otherwise agreed upon by breeder and buyer.
11. The breeder gives a one year guarantee against any genetic issues that may affect the puppy. If this should occur the buyer must provide veterinary confirmation of the issue. The puppy must be returned to the breeder and the buyer will receive another puppy when one is available.
