

Paper flowers – self differentiation level

1. Provide a cupcake case, scissors, circular sticker for each workspace
2. Instructions to service user: smooth out cupcake case
3. Fold in half
4. Fold into quarter
5. Cut around edge to create petals
6. Unfold and stick on centre

For higher level:

Multiple layers of flower with a number of cupcases
Experiment with shape of petal

In the picture we joined the flowers of those patients who wanted to with green cardboard strips so that they could be used to decorate ward with no risk issues using stem
