

### **VdTMoCA and community mental health occupational therapy group**

This group was established by ICAN in 2020, in response to increasing requests from VdTMoCA trained occupational therapists working in community mental health services.

#### **Aims:**

- Share practice experiences - what 'works' and is challenging about using the VdTMoCA in the community
- Develop knowledge of how to implement the VdTMoCA in community mental health services
- Explore the evidence-base for VdTMoCA-informed occupational therapy intervention in community mental health services
- Promote staff support

#### **Terms:**

Group membership is for:

- Occupational therapists and OT support workers who are trained in the VdTMoCA;
- Currently working in a community mental health service, or has significant experience and interest in using the VdTMoCA in community mental health services;
- Committed to actively participating in and contributing to the group through engaging in discussion and sharing information.
