Steel to Concrete Fasteners

Exclusive to Blacks Fasteners. Let's stick together!

High Strength Chemical Anchors

For the fischer Mortar Volume Calculator

NEW **FIS V***

The solid injection mortar for standard applications in cracked concrete, rebar and masonry. C1, C2, seismic rated categories.†

For steelwork constructions, guard rails, staircases.

FIS SB 390 S*

Quick setting, high strength structural injection mortar based on a vinyl ester hybrid. C1, C2, seismic rated categories.

For heavy steel constructions, silo installations, railings, machines, staircases.

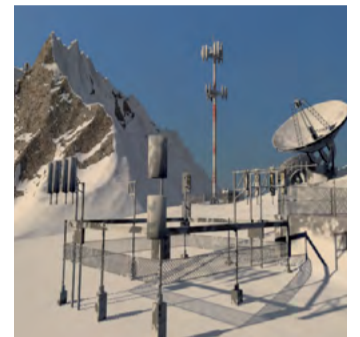

NEW **FIS EM Plus***

Extra high strength structural epoxy resin mortar. C1, C2, seismic rated categories.

For heavy steel constructions, Silo installations, staircases. Anchorings in diamond drill holes. Fixings in water filled holes.

Anchor Bolts

*Please refer to fischer website for the latest information by clicking on the specifications button & entering the product code in the search bar.

FH II*

The push-through anchor for fixings with sophisticated design in cracked concrete. C20/25 to C50/60, cracked and non cracked. C1 & C2 seismic rated. Suitable for temporary fixings i.e. tilt panels.

FAZ II*

For highest demands. Powerful and flexible with variable embedment depths. Approved for: Concrete C20/25 to C50/60, cracked and non-cracked. C1, C2, seismic rated categories.

FBS II Ultracut*

The best possible flexibility in load and fixture thickness. Concrete C20/25 to C50/60, cracked and non-cracked. C1, C2, seismic categories* M8-M14 (* for achieving C2, the use of a filling washer is required).

FBN II*

The cost-efficient fixing for flexible use in non-cracked concrete. Concrete C20/25 to C50/60. Also suitable for: Concrete C12/15 and natural stone with dense structure.

FZEA II Zykon*

Hammerset anchor for fixings in cracked concrete. The almost expansion free installation allows small edge distances and axial spacing giving it a very flexible usage.

SXR*

The high-performance specialist with SX-technology. Approved for: Concrete C12/15. Solid sand-lime brick, Aerated concrete, Solid brick.
