Multistakeholder Governance and Democracy

A Global Challenge

Harris Gleckman, Center for Governance and Sustainability, University of Massachusetts Boston, USA and Benchmark Environmental Consulting, USA

Multi-stakeholder governance is being proposed as the new way forward in global governance. This book examines the challenges presented to multilateralism by the development of multi-stakeholderism, from both theoretical and practical standpoints and provides a guide to the key issues, with numerous case study examples. It is aimed at all professional sectors involved in negotiating and governing at various scales, including international, national, regional and local. It will also interest students of politics, environmental policy, sustainable development and applied governance.
