

Information sheet concerning SWAN student memberships

What are the advantages of a SWAN student membership?

Student members of SWAN benefit from the following advantages:

- Networking and exchange between members
- Regular SWAN meetings with lectures
- Reduced fees for selected training courses and conferences in the D-A-CH region
- Access to the SWAN Mentoring Program Nutrition (currently only offered in German)
- 20% on the basic subscription price of the ERNÄHRUNGS UMSCHAU journal
- Discount (30 CHF instead of 50 CHF/year) for 5 issues of SZE – Schweizer Zeitung für Ernährungsmedizin

What proof must be provided in order to apply for a student membership?

When applying for membership we ask for a current proof of study (copy of the student card with date, certificate of enrolment, etc.)

At the end of each year, we ask for proof of study for the coming calendar year in order to issue invoices for the annual fees of all members.

SWAN must be informed as soon as possible of any change in the form of membership (e.g. admission/termination of studies), but at the latest by December 15th of each year.

After completion of studies:

Upon successful completion of studies, a student membership becomes a regular membership. For the transition to a regular membership SWAN requires a copy of the degree certificate and, if applicable, proof of a final thesis (Master Thesis) in the subject / with focus on "Nutrition".
