TEAK SHAMPOO

New Brand of Maintenance Products from EuroDesign

Before

Wash

After

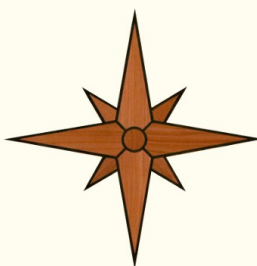

Benefits of EuroDesign Teak Shampoo :

- **Safe with the wood and perfect to be used regularly** as it does not contain harsh chemicals and will extend the new teak look.
- **Bioactivated formula** that removes all the common stains, even the most stubborn ones : food, coffee, wine, blood, oil, vomit, salt, etc.
- **Cost-effective** : highly concentrated, a small amount (30 ml) is enough to wash the whole deck of a 15ft. boat.
- **It does not bleach/decolour the wood** so you can just clean the dirty area without washing the whole deck or the whole piece of wood.
- **It does not damage the seams.**
- **Respectful with the environment** : 100% Biodegradable.

TEAK SHAMPOO INSTRUCTION

How to use :

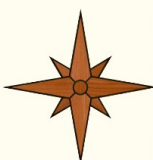

Add 30 ml per 5 liters of water, preferably slightly warm, but no more than 40°C. Let it activate for 15 minutes. Pre-soak the deck thoroughly with fresh water and then apply the mixture with a soft brush, soft bristles or a mop. Rub effortlessly, across the grain and then rinse with plenty of fresh water. Make sure the deck never dries out during the process.

For Heavy Stain :

Make a 10-20% solution of the shampoo in warm (not more than 40°C) soak the area with water before applying the solution.

Apply the solution several times for up to 2 hours and make sure it is wet. Cover with a plastic cloth to prevent it from drying and from the sun. Rinse with plenty of water.

Does not bleach the teak, so it's only necessary to clean the stained area.
