EUDE NAUTIC MARSTRAND COLLECTION

EuroDesign

Wood Engineering

The Marstrand Collection is a brand new retro design by Scandinavian designer Albin Lindgren. He is working with thin laminates and stainless steel to create a design that's both light and strong.

The deckchair and the armchair folds into a single thin radius that can be stacked and easily stowed on your boat and fit in your car.

All furnitures are produced in first grade teak and high quality stainless steel and they are also available with durable Batyline fabric from Serge Ferrari, in a variation of colors by your choice. We only use teak from selected high quality plantations.
