Never mind, Valve on request help.steampowered.com issue a refund for any reason if the request is made during the required return period, and in the case of the game, if the name was played less than two hours. There are more details below, but even if you fall outside the return rules we've described, you can ask for a refund anyway and we'll look. You will be issued a full refund of your purchase within a week of approval. You will receive a refund to the Steam Wallet Funds or through the same payment method that you used to make the purchase. If Steam is unable to issue a refund for any reason using your initial payment method, your Full Wallet will be credited with the full amount. (Some payment methods available through Steam in your country may not support a return purchase back to the original payment method. click here for the full list.) The steam return offer within two weeks of purchase and with less than two hours of play back applies to games and software apps in the Steam store. Here's an overview of how returns work with other types of purchases. Return on downloadable content (Steam Store, which can be bought in another game or software application, DLC), DLC purchased from The Steam store returns within fourteen days of purchase, and if the main name has been played less than two hours since DLC as long as DLC is not consumed, changed or transmitted. Please note that in some cases Steam will not be able to return money for some third-party DLC (for example, if DLC irreversibly aligns the game character). These exceptions will be clearly marked as non-refundable on the Store page before purchase. Return on Intra-Family Purchase Steam will offer refunds for intra-store purchases in any games developed by Valve within forty-eight hours of purchase if the intra-name item has not been used, modified or transferred. Third-party developers will be able to include refunds for in-game items on these terms. Steam will notify you at the time of purchase if the game developer decides to offer a refund at the in-game item you buy. Otherwise, in-game purchases in non-Valve games are not refundable via Steam. Return funds for pre-purchased titles When you pre-purchase the title on Steam (and paid for the title in advance), you can request a refund at any time before the title is released. The standard 14-day/two-hour return period also applies from the game's release date. Steam Wallet Refunds You can claim a Steam Wallet refund within fourteen days of purchase if they were purchased on Steam and if you have not used any of these funds. Steam Hardware During the relevant time frame set out in the Equipment Return Policy, you can request refunds for Steam equipment and accessories purchased through Steam for any reason. You must send the equipment back to us within fourteen (14) days of requesting a refund, following the instructions we provide you. Please contact the Equipment Return Policy for detailed recommendations on the return and cancellation process of Steam equipment and accessories. You can receive a full refund for any package purchased from the Steam Store until none of the items in the kit has been transferred, and if the total time for all items in the set is less than two hours. If the package includes an in-game item or DLC that is not refundable, Steam will tell you if the entire package is returned during checkout. Purchases made outside of Steam Valve cannot provide refunds for purchases made outside of Steam (such as CD keys or Steam wallet cards purchased from third parties). VAC Bans If you have been banned from VAC (Valve Anti-Cheat system) for the game, you lose the right to return this game. Video Content We can not offer a refund for video content on Steam (e.g. movies, shorts, TV series, episodes and tutorials) if the video is complete with other (non-video) return content. Refunds for gifts unaccounted for can be returned during the standard 14-day/two-hour return period. Purchased gifts can be returned on the same terms if the recipient of the gift initiates a refund. Funds used to buy a gift will be returned the original buyer. The EU's right to withdraw funds to explain how the EU's right to withdraw funds works for Steam customers, click here. The refund for abuse is designed to eliminate the risk of buying titles on Steam, not as a way to get free games. If we think you are abusing refunds, we may stop offering them to you. We do not consider the abuse to request a refund for a title that was purchased just before the sale and then immediately rebuying that title at the sale price.
