Well, I personally love this game, and that's what happened that almost made me want to quit it, a couple of days ago when I did with Region 3, I got one of those sentences for a really powerful shotgun, (Commander Holt Pro, to be precise) he said that this gun was for the region 3-4, I believed it, I bought not much gold, and when I did with the bow series for Region 4, I was able to check it out for the first time and I had a huge amount of fun with it and he said I was able to do trophy hunting and I went for it!!! It was destroyed! But when I thought I could do more trophy hunting, he said I should buy another shotgun for trophy hunting, He said I could level up, but I didn't have shotgun drawings, so I decided to buy some of those tier boxes that cost the crystal, but I spent all my gold and crystals to find out that there are no drawings anywhere! So I tried to do some research for How to Get Shotgun Drawings. But I have not found absolutely anything, if you are reading this, then please do something about all this tier business, and make the region range for weapons more accurate, please, but other than that I have a lot of fun, just fix the level please!
