The Cedarock Park geoset sits on the banks of Rock Creek, a triad of great Alamance Creek on the northwest side of the Con Creek Mountains. Located in the Piedmont area of North Carolina, the land is hilly and occasionally steep. Before using it as a park, the land was used as a farm by the Garrett family started in 1830. [1] The Garrett Farm site is part of the historic Cedarock Park area and is known as Cedarock Historical Farm, an educational site where visitors can learn about farm life in 19th-century North Carolina and can encounter goats and donkeys. The park's activities have a 6-mile (9.7 km) trail for hiking, mountain biking, and horseback riding, including some disabled trails available. It has numerous picnic shelters, campsites, fishing ponds, playgrounds, three gazbos, and two courses. [2] The most popular trail available in the disabled trail park is leading to an old rock dam used to divert water for the already demolished gristmill. The dam's location is mistakenly called a waterfall in several locations in Literature Park. References ^ Farm History – Alamance County Archived 2011-06-08 at the Wayback Machine. Good altitude changes, lots of trees, and a creek. It's a beautiful and quiet period. 2 pins and 2 put three ways per hole, allowing 4 configurations. However, at any given time you only have 2 layouts because you either play short tees or long tees. Signs of three new ways have been added that periodical updates from determining the old green/yellow/red/blue to match pdga red/white/blue/gold course level. (So if you need to translate old information from old to new: green = red, yellow = white, red = blue, blue = gold.) Wellspring is right next door. (After you play hole 8 you can jump onto Wellspring on the 16th hole, play the course, then return to the 9th hole. Location Details 4242 R.
