Thank you and keep up the good work. come from trog100 2008-11-10 Which makes the most of the commentary means, or more to the point it of any value. If the cost of dosnt come into it I would say wicked. If that happens, I'd say bestecig.com, but only one can be considered a brand. either way I am currently bestecig.com and chimney to cure 24mg of stuff and intend to order some more. lucisac 2008-11-14 I can vouch for Bestecig.com, Beci representative is so useful and always online and available. I can only say good things about it, not one complaint out there. Oh, Jeff from Genty is good too, can I add them? Steve from Puresmoker.com was also great for me overall, zipping fast deliveries at great prices. rowb 2008-11-19 May I suggest you also look at what we are all pretty much using in this forum. I would suggest you take a look at the provider link at the top of this page. I can say from experience that you will get a better performer and a lower price from some of our trusted dealers like Puresmoker, Litecigua, Bestecig, Janty and many others. Smoke51 just decent review, however there are some short parishes. NJOY is good, the answer to this forum speaks for it yourself and its not good. Take some time and read the reviews, check out the video section and read some comments here. Some Some The best vendors are just not in search engines and they are really the best of them to start with. Im Fanboy of PureSmoker.com - your #1 source for ECigs, parts, and accessories! LITECIG USA and recently BestEcig-Newest Mini E-Cigarette e-cigarette-wholesale e-liquid? can't go wrong with them. Other members here can also give you feedback about other dealers that I haven't had the pleasure of buying from yet. Robw 2008-11-19 Placed an order at 12-12 got him at 12-19 from China to Texas USA. Wow, that was quick. I ordered a bunch of things including pen styles like USB and regular, lots of batteries and injectors etc. The finish at all was very good. The packaging took me 5 minutes to get through, basically a huge bubble wrap ball with a shipping label on it. SambucaLU 2008-11-20 I have so far tried out the style of PER USB and 901 style and works well. had good luck with them too to rob. Fast delivery to China! I know what you mean in the wrapper. I have to sign for him in the mail, then ask the girl if I can use her scissors can't wait to see what's in it! lol! is going to order some more supplies from them too. Can't beat prices when you have enough to make shipping worth it. Glad your experience was good! taz3cat 2008-11-20 I used them and found Beci to be very reliable. Bertrand 2008-11-20 Booked Saturday, hit Australia Wednesday. Yes, it's fast. I think both Bestecig and EMS people should work out the weekend. rowb 2008-11-20 Ya no joke, EMS is a hero. dave1212 2008-12-21 I can vouch for them too. Got my stuff like 5 days, never expected it so fast from China. Coldevil 2008-12-21 yup 1 week in the UK here can't fault their jackolantern 2008-12-21. It doesn't surprise me that Chinese companies actually have excellent customer service. They are at a disadvantage in the market, as many Americans and others around the world are concerned that shipping will be too much, it will take too long to get, the product will break, it will not work in the first place, etc etc. Many Chinese products are great, but you would never know it by watching the news. SambucaLU 2008-12-21 put the order in Beci last night. He wrote and said it was Sunday there so it would be sent out today. When he sends it, he gives me tracking. He sends it to EMS. All my past bookings from them took 3 days to get to U.S. Customs, a day there, then it's at my post office the next day. I hope the same will be true this time. True, however, I wasn't so lucky with the other Chinese Some will say they will take 2 weeks to get. But one of the worst was the package from the UK. Holy Christ! I thought I was going to die before this thing came! Camel Royal Air tracking and gave me nothing but your package was released in the US for delivery... or something like this PeteMcArthur 2008-12-21 All my orders from Beci came on time, the only exception was to delay in UK customs, even that was only a week. Bertrand 2008-12-21 The fact that they did not respond to emails excluded bestecig.) Dc2k08 2008-12-22 yup, bec! good guy, fast service, good prices. dave1212 2008-12-22 I can vouch for them too. Got my stuff like 5 days, never expected it so fast from China. Rickstar009 2009-2-20 Bestecig is my current supplier. I just bought every e-cigarette and all the accessories they have... It's very cheap! inexpensive e-cig web store I still do not find an e-cigarette website that compares in prices up to bestecig.com.... but hopefully with this thread I could find even better vendor, but I doubt it add forums as well as sounds good dc2k08 mate I said I would let you know how I went with Bestecig.com, so here I got my USB e cigar, my style pens BE112 and USB DSE901 USB battery today from Bestecig.com and this USB e cigar is really good. I was vaping it for an hour and the liquid taste in my mouth that comes from it is exruciatingly sweet on my tongue.... I may have jumped the gun abit before giving it a real try....not being able to see the LED light when the middle of the puff can be annoying, but I can get over it.... The performance is exceptional and the output of the pair is like thinking like a cloud to stay the least... But it's the distance that matters and I have to wait to see how long it would seem to be good performance and durability of this e-cigar will be before showing any signs. fingers crossed! THE BE112 also seems like a good steam manufacturer and works well..... I plugged both USB e-cigars and BE112 into my USB hub instead of my main USB port on my computer, which is why they are first didn't seem to work as I was told they would be a stupid idea for my behalf D-oh! The USB DSE901 battery plays up however.... I contacted the customer service at bestecig and they seem very useful so far.... It looks promising. I could have done something wrong though, but I'm sure I'll figure it out.... I think I should use there 901 Atomizers with there USB 901 battery ... I'll try there sprayer some time today and see if this does the Cellmeister 2009-2-28 trick I can vouch for Beci's bestecig.com, they're smarter out there, fast delivery, great warranty (7 months - they're back!), good products (for their style) and excellent customer service, they'll email you back as soon as possible (on their time zone). I am that they should upgrade their atoms for more veip, and reduce there DOA in SDS (Sudden Death Syndrome), I would suggest you buy (5) packets of Butts and Atoms with any starting order Kit, Kit, more money, but you won't dry out for a long time. There USB Passthroughs are very well made and Juice Good.I always get can orders in 4 to 5 business days (on the east coast)! Cellmeister 2009-3-6 has never had a problem with Best e-Cig, I order every couple of weeks. I always get an email with tracking, and a link to my site to track it as well. I just got my order today I ordered last week. I have never had any problems with bookings from BestEcig.... Hold Wapin! Mouse2009-3-6 I placed an order with them yesterday. They provided a tracking form for several hours and were very professional in their correspondence. So far I have been tracking the package at the Guangzhou facility. The order was for some 801 penstyles and a bunch of spare injectors, etc. I can say this though: They answer questions immediately, and have been very polite and responsive ever since. floyd2009-3-6 My order took 4 working days to arrive. Beci is very helpful and always on hand to answer questions and the serial number ems he provided allowed me to constantly track my order ... I think the original poster was just unlucky. Randall Fox 2009-3-6 How to replicate the bestecig customer, I think they have excellent customer service and good quality products. Beci always responds in a timely manner, and stands on the guarantee no questions. Free electronic liquid after the New Year was a cool bonus, too. Foggy 2009-3-6 I only had great service from bestecig along with great prices! Booked several times already and Beci is always very helpful and patient. Every order to date has come through seamlessly - a real pleasure to deal with. Mrl 2009-3-6 I received my 901 from bestecig, expecting that my second order would be delivered either today or Monday, Beci was great, always responding to requests quickly. I haven't had any problems so far with the equipment. Asidrave 2009-3-6 I also placed an order with bestecig. Beci answered all my questions and I felt confident to place the order Taz 2009-3-6 I always recived good service for Beci's Bestecigs. I love their penstyles and their prices. Their stuff lasts as longor longer than anyone else I have an order from and Beci replaces things without problems. Faethe 2009-3-27 Beci of Bestecig is gold. Good product, great service. Don't worry at all. MyB 2009-3-29 for the last 2 months I have made 3 orders from bestecig.com, always get it six days after ordering. I just ordered 10-10 ml bottles for \$42., that's .42 ml. I compared the total price with shipping to about 5 other stores and bestecig is always the best. their price per unit is much cheaper, and the delivery price is 18.50 for the first 500 grams. And if you Customer, Beci always adds 10 ml of juice for free. I have only had a battery failure in the past 2 months and bec! replaced it on my my order no questions. I have his 112 (801) and his 103 (super mini). In total I have 12 atoms and 8 bits of no DOA and one dead bat after 2 months of use. it's a great track record I'd say. I like all the liquids too, they are consistive. Moonlightscp 2009-4-4 Beci is awesome, very nice to do business with them, no problem with any products in the course, 6 days to Canada, faster than order locally. Really enjoy the juices too. Bernards 2009-4-4 I just want to share my experience. I'm in Singapore. I placed the order around midnight on the 31st. Oh. All this without paying through the nose for DHL or FedEx. They even got the right order. Double ou. For comparison. I placed an order with another vendor on bestecig.com the 29th. Smokie 2009-4-4 Good results from best-ecig ordered two large orders and both were from porcelain to my in five days of business. and Beci is very good at emailing information about the order. only my two cents booked from Bestecig and was thrilled to find amazing service, great immediate delivery and 801 atomizers which were really really good! Definitely also a hassle free deal, bestecig is the best! I only recently placed an order with them and I was more than impressed with their business professionalism and their connection. I'll keep you all
