By setting a timer, you can periodically and automatically perform. The help feature that many pages cache can see offline. AutoClick is a great program to save the clicks you make with your mouse, just at the exact moment and area of the screen where you did it, this program allows you to keep that sequence of clicks and play them exactly when and where you choose. It can be very useful in programs or games that you need to click on certain zones every now and then, rather than doing it manually or while present in front of the computer, this little program will do it for you. You also have the option of repeating a sequence of clicks every time you finish a recorded sequence or finishing it as soon as you have finished it.
