Answer ID 6917 Published 26:39 26 October 2012 Updated 07/01/2015 10:31 AM Dragon NaturalSpeaking 12 User Guide and General Information: This article contains dragon NaturallySpeaking 12 User Guide and general information about version 12. Click on the link below to download the guide. Note: The same guide covers all editions of Dragon NaturallySpeaking 12. Which include: Dragon NaturallySpeaking 12 Premium (formerly Named Preferred) Dragon NaturallySpeaking 12 Home (formerly Named Standard) Dragon NaturallySpeaking 12 Basics (formerly Named Essentials) Dragon Naturally Speaking 12 Professional Dragon NaturallySmeive 12 Legal To View Additional Information and Training Tools on Dragon 12. Please visit Dragon Speech. Funkz's Word and Google. The new childcare guide, which will help young students between the ages of 9 and 13, use speech recognition software effectively. Dragon Naturally Speaking is recognized as a leading speech recognition software app and is used worldwide to help people overcome the obstacles associated with dyslexia and other difficulties in sucking thoughts onto a page. My own (Bob) dyslexic daughter wouldn't have passed her medical degree without him. However, the documentation with it is not written for children - it is hard enough for some adults to understand. But now the problem is solved: colorful dragons in this new book by two teacher-consultants will guide your students through eight steps of accurate turning speech into text. 44 pages, full color. ENPage 2 The user manual, which covers all product releases, provides detailed information about installation, additional settings, voice commands, and dictation of different types of text. The guide also includes tips and notes to help you use the software more efficiently. Don't forget to also take advantage of our illustrated book. For the latest technical details, please visit KnowledgeBase. Bluetooth Wireless headset sends Dragon Bluetooth Wireless headset We recommend plugging the Bluetooth microphone key (wireless adapter) into your computer before opening Dragon. While the Calisto II headset is charging, its light lights glow solid red, but as soon as the headset is fully charged, the light goes off. The headset doesn't automatically turn on. Once the headset is charged and paired with its key, you should turn it on by holding it button for 6 seconds (it then emits 4 upward beeps) and then pressing it for 1 second to activate its radio communication to its key This video includes how to charge and turn on the headset as well as enable the USB connection wireless adapter. It also discusses how to check the settings of the recording device in the Windows control panel. A quick start to the card fast start card will help you quickly install and activate the Dragon. Dragon 13 is a quick start guide to documentation of non-English Dragon products, visit our international websites.
