GBWhatsApp is an advanced and customized mod of the original WhatsApp and is most suitable for those who want to use two Whatsapp accounts on the same device. It is based on the fashion of WhatsApp Plus, which was discontinued by WhatsApp creators when they ordered WhatsApp. The advantage of GBWhatsApp is that you can install it along with your original WhatsApp without any interference. You can also view messages that have been deleted by another user, and you can easily get photos that have been deleted in a private or group chat. This version of Whatsapp is also best suited in case you get banned from the original Whatsapp. Accounts that receive are banned from receiving only a small message: Your phone number is prohibited from using WhatsApp. Seek help in support. Whatsapp official usually doesn't issue any warnings before banning your account, and that's all you can't use Whatsapp anymore. But GBWhatsApp offers a detour from the Whatsapp ban. WhatsApp plus Mod stayed in circulation and because of that we have GBWhatsApp which you can easily customize if you are a developer. GB WhatsApp has a modified user interface for additional features and uses the same license and protocol as WhatsApp. Once installed, you can continue to use GBWhatsApp with the new number as a fully independent chat app. GBWhatsApp comes with lots of features and more improvements. In addition, it has many new themes and improved privacy policies. You can use this app to discover the hidden features of Whatsapp. The best app to enjoy two different accounts on the same device. You can hide your status online, send large video files, more than 90 photos can be sent at once, not 10 photos in WhatsApp. GBWhatsApp Features: GBWhatsApp supports many special features added to its latest Modded APK. Because this app comes from independent developer AlexMods, so it gives the anti-Ban app a function and makes it Ban Proof. It works great on standard phones and there is no need for Root Access. But you can always check if your phone is rooted using the Root Checker app. You'll also notice improved personal privacy when using this modern version of Whatsapp. You can disable calls from specific people with the ability to block and unlock. Also, change the tick styles of your choice. It's easy to hide your last seen by changing the settings in privacy options. Normally you won't find these settings on standard Whatsapp. You can also hide the double tick and set up the second tick settings. And the other person won't even know you're this. In normal Whatsapp any changes you make you have to implement it for yourself as well. But this is the beauty of GB WhatsApp where you only have to make changes to one side until you like everything yourself. Privacy and Customization in GB WhatsApp In the latest update, you can also set privacy on your status and can only for yourself or your contacts. Or you can hide your status from specific contacts. This feature is unique only to GB WhatsApp. You can also stop receiving calls from anyone you want, or for everyone. Now talk about the fun features of GB Whatsapp include increasing the profile of your contacts' photos. Just click on the photo and zoom in. In addition, you will also receive a warning if one of your friends has changed his Whatsapp profile picture. Also, you can copy any status just to open your status copy and download. Sharing multimedia on this modern version is also fun and you can share up to 90 images at a time. Audio clips can be up to 100MB and video size can be up to 30MB. Watching media is also very easy as everything loads automatically and you only have to click and play. Please note that we do not recommend using GBWhatsApp because it is unofficial and offers encrypted. WhatsApp Inc. has officially begun to discourage the use of such apps. You can read more often and you can customize the messenger's themes and apply custom themes. It also offers a dark mode and built-in emoji shift along with numerous GBWhatsApp themes. Settings also include the ability to change missed call icons, which are very useful if you use GBWhatsApp for secret purposes along with the ability to change the screen of your calls. All of these features may seem amusing, but keep in mind that this version of Whatsapp is very modded and insecure compared to the official version. This is why this version has been removed from the playstore and poses a serious privacy threat highlighted in this article. GBWhatsApp APK 2020 is known as GBWA in short order. This is a modified version of the official WhatsApp. WA is known worldwide as a messenger app that uses our internet data for free messages, audio and video calls. But everyone knows whatsapp's problem. It is limited by its features. That's why third-party developers have made a modified version of WhatsApp called GBWA 2020. GBWA APK for Android 2020 has many features that are not available in official WA. Right now, it's being updated to the best of its ability to provide you with more and more options. But don't worry, because gbmod.net is all you need to download the latest gbWA versions easily without wasting a lot of time. Information about GBWhatsApp 2020 APK There are many websites that do not provide enough information about APKs, but we provide every little information. The table below will provide you with information about the new version of GBWA 2020, the size of the APK, the required version of Android, security and the latest update. This will help you learn more about GBWhatsApp APK and its latest versions. The name of the application GBWhatsApp Version 8.40 (Last) APK Size 52 MB Mandatory AndroidVersion 4.0 Last update 1 day ago Features GBWhatsApp APK 2020 The latest version of GBWhatsApp 2019 has many features including great accessibility features for multimedia, more hidden features, new and customized themes, multi-accounts, and many other interesting features. Most of these features are not available on the official WhatsApp 2020, so GBWA is a way to be more widely available. Read the article to learn about all the features and new ones about the latest version of GBWhatsApp. Multimedia now you can send large video files, audio, images that you can send up to 50MB of video files audio files can be shared up to 100 MB Initial image quality when sent. Change the video player in GBWhatsApp you can now send more than 10 images sharing video length limited to 7 minutes instead of 30 seconds Hide double tick hide online status hide read message status hidden chat function hide the status of recording New topics, Multi-accounts, and languages of the new GBWhatsApp theme creating and using themes can be used by other GBWA users to download for free amazing themes created by some GBWhatsApp dual users / multiple WhatsApp accounts GBWA support different languages emoji, GIFs, stickers, and the launch of new emoji change emoji icons are available you can change to notify the bar icon able to add stickers from play store multi-GIF providers Auto Response, copy status, always on the ability to copy the status of anyone, just by clicking on their status always online function of automatic message response just like WhatsApp Business Other Interesting Features allow password backup function planning to change your latest seen amazing tick connectable styles with WhatsApp features won't work What's new in GBWhatsApp APK 2020 (v8.30) bugs and fixed bugs added more new Emojis now you can call members of the group error corrected when adding stickers from Google Play Store Crash fixed when searching for a theme more stable app In this section, GBWA features so if you don't understand much about these features, you can read below. I hope this will help you understand all the features of GBWA easily. Multimedia sharing has improved when we we About the official multimedia feature Of WhatsApp, we get a lot of problems as we can not send a large size of video and audio. We also can't open the video on our external video players. We also can't share long videos and more images at once. But in GBWA we can send more than 10 images at the same time and in original quality. We can share a video lasting 7 minutes instead of 30 seconds. And for the audio file, we can share up to 100MB files at the same time and up to 50MB for the video file. All of these features are only available on GBWhatsApp. These features are very useful in life from day to day when we rely so much on WhatsApp. Hide your online presence in GBWA This concealment feature is not available in the official WhatsApp. As you know, how our social media life goes day by day. We need more privacy than ever. But the official WA is not able to give us privacy options such as GBWhatsApp. At GBWA, we can do so many things in terms of concealment. We can hide the double tick and hide our online status so we can stay secret. So many more things we can do in GBWA, like hide our writing status, hide our status records, hide read status messages, etc. Official WhatsApp can't afford all these great features, so GBWA is designed. Download GBWA now on our website. New topics, multi-accounts, and languages In the official WhatsApp, we do not have many options regarding new topics, there are only limited topics. When we talk about multiple accounts, WhatsApp only maintains one account in its APK, we need a multi-pro vief app to use multiple accounts in the official WhatsApp. And it only supports 60 languages in Android. But in GBWA, there are many options for themes. We can use individual themes, we can create and use themes that are created by other GBWA users too. GBWA supports multi-accounts without the need for other apps, such as clone apps. You can make 3-4 accounts in GBWA. It also supports more languages than the official version. Emoji, GIFs, stickers and launcher GBWhatsApp supports the emoji change option so we can customize our emojis. It has new launcher icons, so we're not bored with using the same launcher icons for months. We can change and customize the notification bar icon for GBWA in GBWhatsApp. Now it supports play store stickers as well. We can download any group stickers to use them on GBWA. As we know, the official WhatsApp has limited GIFs, but on GBWA, we can find multi-GIF providers. And we can enjoy using these unlimited in our chat rooms. GBWA has so many individual features that are not present in the official WhatsApp. You can only find them in GBWA. Other Features Know About WhatsApp Business Auto-Off Feature? With this feature, you can answer your WA contracts when you are not available. You can choose a message for an automatic response. This feature is also available on GBWA. Besides, you you copy the statuses of others by simply clicking on their status. To do this, you don't have to screenshot their status. This is a cool feature of GBWhatsApp. There is a feature always online in GBWA. In this case, you can show yourself online 24/7. In addition, there are many other features such as include password, backup, message planning, change the last seen, amazing tick styles connected to WhatsApp Web, etc. GBWA supports WhatsApp Web, but all the additional features will not work there. You can back up chats in GBWA so you can recover them whenever you want. You can use message planning for chats. You can change your last seen for safety and other personal items. All of these additional features are not available on the official WhatsApp. To use them download GBWA. Benefits of GBWhatsApp APK After reading all the GBWA features, you should have known the benefits of GBWA. It has so many features that can never be accessed on the official WhatsApp. You can use to send more audio video files, you can hide your online status and more that you may have read in this article. But every application that has advantages also has some drawbacks. Read the article to find out more. The drawbacks of GBWhatsApp APK As you know, GBWhatsApp has tons of features that are so incredible. But GBWA is not recommended by the official WA. And using GBWA for a long time can result in a permanent ban on your WhatsApp account. So it's best to use a temporary number to prevent a ban. Use GBWA for temporary use and never use your primary number for a GBWA account. Download GBWhatsApp APK 2020 Latest version (v8.30) Click to download the latest version of GBWhatsApp APK for Android Download GBWhatsApp APK Before you go anywhere, you should read the guide to installing GBWhatsApp (GBWA). Because people forget to read the manual and face problems when installing this GBWA mods. Follow a few simple steps down below to set GBWA correctly. Step 1: After downloading the latest GBWhatsApp APK 2020, you should turn on the installation from an unknown source. We have to include this option because GBWA is not available in official stores such as the play store. To install an unknown source, go to an unknown source, you must find the GBWA APK file in your device. To do this, you have to go to the STORAGE of THE APK 2020. Now just press the installation button and wait a few seconds. It depends on your ram device. The installation is completed safely. Now you can open GBWhatsApp APK make an account and enjoy all these GBWA features in your device. But before you go with this site, you can get more information about GBWA. Read the frequently asked questions below for more information about device security, multi-accounts, etc. answers to some of the frequently asked questions about GBWhatsApp. There are questions that come to our opinion when using GBWA. So I'm here to put an end to all fears, and I hope these frequently asked questions will help you. Issue 1. Why use GBWhatsApp? No one forces you to download GBWA. It's all your choice as you know its flaws and advantages. GBWhatsApp APK 2020 latest version offers so many features that the official WhatsApp does not have. But as I told you, GBWA is not officially recommended. You can use GBWA on your device with a temporary number because it can cause your account to be banned permanently from the official WhatsApp. But the temporary use of GBWhatsApp is fair. So what do you think? And don't worry, because now you have all the information about GBWA and the official WhatsApp. Issue 2. Can I make audio video calls to GBWhatsApp last 2020 APK? Yes, as we know, how important this feature of the vocation is. Like WhatsApp, GBWA 2020 also has an audio-video call feature. All you need is a stable data connection to enjoy this feature. Call any friend who is on WhatsApp without paying any amount of money other than Wi-Fi or data connection. Some of the older versions of GBWA don't have this feature though, but we provide the latest GBWhatsApp to make sure you have the best call feature. 3.How to update the GBWhatsApp 2020 version? Without updates, any app will be limited, but with new updates and the introduction of new features makes the app runnable for a long time. That's why GBWA is updated from time to time. You can update GBWA by simply replacing the old app with a new one, just visit its official website gbplus.net to download the latest version of GBWA. You can visit our site also download GBWA for free and in one touch. Issue 4. Is GBWhatsApp 2020 safe? When we talk about device security, then GBWhatsApp is safe because it does not require rooted devices. But using GBWhatsApp will lead your account to ban. That's why I advise you to use a temporary number for your GBWA account. Never use your important phone number to make an account on GBWA. Because it will lead your WhatsApp account to a permanent ban. Although, use GBWA for temporary use on a temporary room to enjoy all these GBWA features without rooting the device. Question 5. Can I use multi-accounts in GBWhatsApp APK 2020? Yes, you can use multiple accounts in GBWA. You can use 2 or 3 or even 4 accounts on GBWA. Even you can use the official WhatsApp 2020 and GBWhatsApp on the same device. But you need a different number for both. Because if you sign your official WhatsApp account on GBWhatsApp, your official WhatsApp account expires automatically. So you need a secondary number to make an account on GBWA if you use the official WhatsApp on your device. Final Verdict After reading all the features, benefits, frequently asked questions you should have known about the GBWhatsApp APK Version 2020. As I told you before, GBWA has many features such as hiding many features i.e. hiding an online status, hiding a reading message, hiding a double tick, etc. GBWA offers a lot of themes, individual themes and multimedia functions. But instead of all these GBWA there is a downside as a permanent ban of your account. So, as I said, use a temporary number for GBWA. Download the updated version of GBWhatsApp 2020 for one tap on our website. Site.
