To provide you with the best way to transform doc files, we partner with Solid Documents, the best solution provider on the market. Converting a PDF to a DOC in secondsIt is very easy to convert files using our tool. Try it for yourself and you'll love it. Magical conversion in the cloud We have a lot of servers in the cloud that do nothing more than convert pdf files into Word. So eat and let them work. This site uses your own and third-party cookies to develop statistical information, personalize your experience, and display personalized advertising through viewing analytics, sharing it with our partners. Using OCR2Edit, you agree to use cookies. Welcome to our free PDF to Word converter! Converting PDFs into edited Word documents has never been easier. Step 1: To get started, drag the PDF into the download window or click on it to select a file. Step 2: Conversion to .docx will begin now and should not take more than 30 seconds. Step 3: Made! Click Download to get a Word document in .docx instantly. If you prefer the .doc file as a output, click More and select the PDF for the DOC converter there. You've just found one of the most modern high performance PDFs for Word converters on the market: It will create an editable Word document from any PDF, rather than just include entire pages like images like many others. Our app can also convert large PDF files consisting of hundreds of pages or more. There are no restrictions on downloading or size of the file. Believe it or not: Our app is 100% free: no hidden costs. There is no need to register. Whether your file contains edited or scanned text, our smart tool can handle it! For scanned PDF files, our tool will extract text using complex optical character recognition (OCR) algorithms. To get great conversion results, our software uses the latest image recognition algorithms correctly distinguish between text and images. Using our service, it processes your PDF files on a remote server. So your privacy is important to us. We delete all your data from our servers as soon as it is converted. We're not going to share them or even look at them. You've just found the perfect place to convert documents here, and we're sure you'll be surprised by the accuracy of the results and how articles, forms, or resumes retain their location and initial structure. You're still not sure? Below are the answers to the most common questions about our app: How can I convert a PDF to .docx? By default, our service will provide .docx files as a conclusion because we believe it is a universal format for edited documents. Just send your data and our tool will start automatically turning them to .docx. How does this tool handle images, equations, and tables in PDF files? Our web converter extracts images, tables, and even mathematical formulas and equations from the original file and adds them to the Word document without altering any details. Thus, it performs exceptionally well in scientific articles and picture and table sites close to their original position in the Word output document. Does your service also work for scanned documents? Yes, our service is also capable of processing scant PDF files. It also detects images in your input file. The resulting .docx file will contain both text and images of the original. The content of the document will remain the same. The only thing that changes is the format. Is there a limit to the page number of my document? No, we don't currently apply a limit on file size or the number of PDF pages you send. Note that it will take much longer to convert large PDFs. Can I convert the PDF to DOC here as well? Yes, we also offer conversions between PDF and DOC here. If you want to get the .doc file as a output, just select this option in the navigation strip at the top right corner of the page. Do my downloads are saved on your servers? We reliably convert your files without jeopardizing the privacy of the parts they contain. Your privacy is important to us, leading us to choose to remove all your data from our servers permanently within 30 minutes of downloading. Your identity also remains private, as we do not ask you for any specific data. Is your app supported on all operating systems? Yes. Our app works on all personal computers, regardless of whether the operating system is Mac, Windows or Linux, and is compatible with all web browsers. It also supports all modern mobile devices. As things happen in the cloud, you can sit back and relax. We believe you just found him. Our app creates high-quality Word documents from any PDF.
