Online shopping sites offer bargains, discounts, and offers to make your shopping experience useful. These sites also carry user reviews, ratings and options for comparing prices and specifications to make an informed decision. You can also use filters to make sure you get the wish you are looking for. When it comes to payments, you can use net bank, credit or debit cards, UPI, or COD options. There is also an EMI option for easy and hassle-free payment. The online store gives you the privilege of shopping from your home, not the time to choose the right smartphone under 10,000. If the phone doesn't meet your expectations, you can either return it or go for a replacement option. Mobile phones have become a necessity for almost everyone around us. Whether it's a factory owner or an employee, everyone needs a mobile phone. The growing demand for mobile phones has seen a huge drop in its price. If someone is looking for a mobile phone, he/she has different options. Even if we talk especially about mobile phones below the range of 10,000, the list is huge. Phones with high-quality sensors, 4G object, excellent quality cameras are now readily available under Rs. 10,000. Sometimes we look at a mobile phone and do not want our budget to exceed 10,000 rubles. So, here's a list of the top 10 mobile phones from the Rs.5000 to Rs.10000 range. The Redmi Note 4 was launched in May 2017. This dual SIM phone has a 2GHz Octa-core Qualcomm Snapdragon 625 processor and runs on Android 6.0. He has 32GB of internal storage (expands to 128GB) and variants 2, 3 and 4GB of RAM. It has a 13MP rear camera and a 5MP front-facing camera. He has a price price at Rs. 9,999 and available in black, gold and dark grey. Next on the list was another Xiaomi Redmi 4 phone. Its main feature is the long battery life. It was launched in May 2017 and has 2, 3 and 4GB of RAM. It has a 1.4GHz Octa-core Qualcomm Snapdragon 435 processor. The features are similar to the latter, but it is less powerful. It falls under the Rs 9000 and is available in black and gold. This yureka black is only available in black. It was launched in June 2017. It has a metal body, with 4GB of RAM and 32GB of internal storage. It has a 13MP rear camera and an 8MP front-facing camera. This Android 6.0 mobile phone is only available on the Rs 9000. Next in the budget category is a Lenovo phone. It was launched in May 2017 and has a 13MP rear camera. It runs Android 6.0.1 and has a 1.4GHz Octa-core processor called the Snapdragon 430. Its price is within Rs 10,000. If you plan to buy a phone below Rs. 5000 Intex Aqua 5.5 VR is the best option available. It is a dual SIM phone with a 5MP rear and 5MP front camera. It has 1GB of RAM and 8GB of internal storage. It is available in champagne and white. This phone is a worthy performer provided by Motorola. This gives you enough battery life to watch videos and play games. It has 8MP and 5MP rear and front cameras respectively. It has a 1GHz quad-core processor and has a price below the Rs 8000. Samsung Galaxy J3 Pro phone is the perfect choice if you want to go for the brand. It has a 1.4GHz quad-core processor. It has 8 and 5 MP rear and front cameras respectively. The price below 8000 rubles is its main attraction. The Coolpad Note 5 Lite phone is basically a decent looking piece in the sub 10K category. It's hard to recommend this phone for previously mentioned pieces, but its price of Rs. 7,499 is a major positive. He is considered a great cousin of the Coolpad Note 5 Lite. But its features are much better than later. The best part is its battery, which can last about two days on regular use. Its price is lower than the Rs 10000. It has a 1.7GHz Octa-core processor of the Snapdragon 616. The phone has good performance. Its Android 5.1 OS is a slight disappointment. It has decent camera quality and memory and storage features is also enough for a normal user.
