The parallelogram and triangle area is a fully interactive lesson for year 6 students In this lesson, students will be able to: Calculate the area of parallelograms and triangles Correlate the rectangle area with parallelograms and triangles and use formulas for this. This lesson meets the requirements of the National Parallelogram and Triangle Curriculum for Year 6 Mathematics Teachers can use the lesson to teach the entire class as well as at home to students. There are many drag and drop-ups and interactive sheets including score issues as well as instant feedback. Appropriate for home schooling due to school closures. The lesson contains 39 interactive pages. Click here for more topics FreeReport ProblemIt is a resource designed for UK teachers. See the U.S. version. A power point explaining how to work out the triangle area and parallelograms with examples for children to try. Also included are sheets for the development of triangle area and parallelogram area. Read more Report on the problem FreeReport ProblemIt is a resource designed for UK teachers. See the U.S. version. FreeHere is a lesson that I created for a mixed/high ability year 7 group on the square of triangles, parallelograms and trapezoids. Attached you will find the appropriate print file. The questions were adapted from Mistry Mathematics on TES. Feel free to change, improve and share! Please appreciate how much I appreciate the feedback.
