However, Hotspot Shield has about a dozen reasons to choose it as one of the most trusted companions. First, it's from an app publisher specializing in protecting today's smart devices. In this way, users can rely on their experience in the industry. This is a series of products that are related to each other, and if users want to use the whole set, they can be found right on Google Play. All of them are very popular with more than 10 million downloads. The hot shield is up to 50 million. The best VPN Proxies and Wi-Fi Security App Users around the world can immediately activate powerful app features to hide their online identity and access apps and websites without fear that they will be the bad guys to break in and watch. This allows users to freely use the social networks they have and not to worry about being exposed to personal information. All your online activities are protected by the most advanced methods available today. Your IP address will be hidden, your identity and location will not appear on any tracker, and your privacy and security features will allow you to share multiple accounts without fear of being confused. More than 2,500 fast VPN servers in 50 countries, your traffic is encrypted, so it has access to global networks and apps and social networks, regardless of your country. You probably already know that if you want to go to Google in some countries, it banned and replaced by a local network, or even Facebook and Instagram share the same fate. So Hotspot Shield will be a great partner so you can connect with the world It's easy. In fact, some apps can do this that you can easily find on Google Play. But this is one of the most popular names because of its unprecedented VPN performance. A set of users can access their own servers located around the world to reach the fastest speeds, the most stable and the safest connection. Thanks to this, there are many stations around the world. Thus, this app reaches the widest OHVATA VPN from 20 or more countries including the US, UK, Japan, India, Australia, Canada, China and many other places. Not to mention Hotspot Shield is a totally free app released for everyone in the world to use. The main features I mentioned above are unlocked for free and permanently. If you want to use it at an unlimited level, you can buy luxury packages with very little money to maintain. It's really with the money that you spend to unlock. Finally, this app does not store cookies or logs for the duration of their functions. This means that users are safe even for this app publisher. Now you're ready to download Hotspot Shield for free.
