Main business areas: consumer electronics, lighting systems and medical equipment. The history of the corporation has more than a hundred years. It all started in 1891 when it was founded in the Dutch city of Eindhoven (Eindhoven, the Netherlands) brothers Anton and Gerard Philips (Anton Philips, Gerard Philips) that mainly involved production of electric bulbs. She received the name Philips & Co. As the first time only a few dozen people work on production, already in 1920 the brand became very familiar and recognizable. The company gets pride prefix Koninklijke - «Royal» (Netherlands.). The company has repeatedly changed logos. Circle with four stars and triple rolling line (variations played on them and earlier) appeared in 1926. The final form of his was preserved to this day, logo obtained in 1930. But nowadays more often instead of the logo on the products exhibited simple inscription «Philips», full of capital letters. Throughout its history, the company has constantly increased its potential. It not only expanded the extent of its products, but also constantly engaged in their own research – Philips owns thousands of patents from 1918, when the company began its own patented invention. By innovations from Philips (although others have been made in close collaboration with other companies, such as Japan's Sony) in the consumer electronics environment, such habits are things like audio cassette, video cassette, CD, Video CD, DVD... Something -How can boast achievements of Philips and in mobile communication. Very unique development has been done in medical and relief directions. By the early 21st century, the series of Philips Home Electronics included audio and video equipment, television sets, mobile phones (in 2007 the business was sold to China Electronic Corporation - CEC). In the US, Philips offered under the brand Magnavox. The company is also known for its electric shearing accessories and Matches for different purposes – from primitive candescent light bulbs, to the most complex lamps, built using the latest achievements. Driving at night along the brightly lit highways of the Netherlands (and other European countries), could not help imagine - because the number of lamps hanging across the road strengthened along the way, and even embedded directly in the road, the current enormous; and they all produced Philip. The turnover of the company has already exceeded ten billions, and the number of units counted in decades. In 1997 the company changed its name to Philips & Co, which is used this day – Royal Philips Electronics (well, or Dutch style - Koninklijke Philips Electronics N.V.). And in 2001 there was a change of headquarters-based: the move from Eindhoven held in Amsterdam. In the first half of 2011 was marked by the fact that the company decided to abandon the production of television sets, unable to compete with Asian manufacturers. Manufacturing departure for TPV Technology from Hong Kong. Later it was sold as a division and Lifestyle Entertainment, specialized in the production of audio and video equipment. Equipment.
