The ICC and the International Federation of Consultant Engineers (FIDIC) will hold their annual ICC-FIDIC conference in Sao Paulo, Brazil. The event, which brings together the world's leading building practitioners aims to provide participants with an update on the latest industry trends and events, deliver real-world insight and expertise, and offer an exclusive networking platform for the international construction community. Internationally renowned engineers, construction arbitration specialists and full-time lawyers of the industry's leading companies will share their practical experience and knowledge on FIDIC contracts and related claims and dispute procedures, the ICC Disputes Councils and the ICC Building Tribunal. Who should be present? Any practitioner involved in international construction contracts and disputes: engineers, contractors, full-time lawyers of construction companies, intermediary arbitrators, experts, contract managers of financial institutions and governmental organizations involved in the procurement of FIDIC FIDIC FIDIC, is the French acronym of the International Federation of Consulting Engineers. It was founded in 1913 to promote the professional interests of member associations and disseminate information of interest to members of its constituent national associations. FIDIC membership represents more than 99 countries and the majority of practicing consulting engineers in the world. Buy your FIDIC books here.
