Most roof rack systems include three items, Bar Pack, Legs Pack, and Fit Kit (some vehicles may require 2-4 items depending on the system, however this will be specified when you choose the type of vehicle above). All prices are specified by the Recommended Retail Price, including freight, but they exclude any retail installation fees. Please consult with our Buyer's Guide on our website to find suitable solutions for your car model. Start by selecting the Roof Rack category and enter the necessary vehicle parts. If your car or model car is not specified, we unfortunately do not have a solution. Choose your load bars, otherwise known as crossbars, go over the width of the vehicle roof, providing support for Thule carriers.
