If you want to save the trees as well as your nerves when searching for that important piece you wrote yesterday, go digital! Choose the most convenient app from the list below and write everything you want and wherever you are. Related theme: 33 Best Blogging apps of 2018 (Android and iOS) iAWriter is an app that has been highly rated by virtually all the fashion magazines out there - TIME, Forbes, The Guardian, and many others. The app provides you with a clear interface without distractions, so you could fully focus on writing. If you really need to focus, you can turn on a focus mode that obscures everything except the item you're working on. If you write at night, choose light in dark mode, so that your eyes are not tired. So, the first advantage of the app is that everything is super And clean. Because sometimes even people with excellent writing skills make mistakes or use inappropriate words, there's a built-in editor that helps make sentences more consistent. Ready texts can be saved in HTML, docx, pdf, export to WordPress, Medium, etc. so if you're a blogger or writer or some other kind of content creator, this is probably the best option for you! You can also like: 15 Best Movie Apps for iPad back in the Page menu is more than just a writing app. It is a space to express yourself in many ways that are related to writing. You can choose from different styles, shapes and patterns that will fit your needs. Normally, one would write a resume, a letter, or even a digital book on a PC, but this app really revolutionizes these old ways. This allows you to do all these writing tasks on your iPad (or iPhone). Moreover, it allows you to draw directly in your projects, which is very convenient - to create a picture with a PC is still much more difficult. Another plus is cooperation - you can work on projects with someone or with your team. So, if you need a writing app to create cool project writing or just something that requires extra detail (rather than just text), this is a good option to consider! back to the menu - Ulysses is very similar to iAWriter. It also offers a clear interface that allows you to immerse yourself in the process of creating text. It's

easy to use and has all the tools you need to deal with editing, formats, etc. by the way, you can keep your work in different ways - HTML, PDF, docx. You can even place it directly on WordPress or medium. Thus, basically, we can observe all the functions that are also present in iAWriter. Synchronization, cool-looking library, autosave ... There are a lot of great opportunities in this. The app requires a subscription though, so if you're the money, it's best to compare prices first. You can use the 14-day free trial and then decide whether you want to save the app. It is known to every computer user in the world. The biggest advantage of the program is its functionality. You can use numerous tools to make your text look exactly the way you want it. What's more, you can use comments in order to collaborate with others on your written projects. Reading mode allows you to view documents. Documents can be stored in different formats - everything as usual. So if you prefer the good old ways, this is your best bet! It really doesn't matter whether you're using an iPad, PC, or any other device, Microsoft Word is present everywhere. By the way makes synchronization between devices easier and more accessible. back to the menu - History planner for your writers yours can be an extremely convenient tool for creating new stories and type on it (obviously). Some people neglect this function even if they are involved in writing. It really doesn't matter if you're a writer or not, in any case, if you need to write a story, report, article, scientific work you'll surely find this story planner useful. The main feature of this application is that it allows you to make a content plan for a future story and fill each chapter in a convenient order for you. Thus, all your notes will be organized and structured. Another curious feature of this app is that it even allows you to create profiles for characters so you can remember all the special features you gave them while writing. You can also outline your written projects. You can as well as; 12 Free interactive board apps for iPad back to the menu - If you want a very simple app to write, select the notes taking the app! Sure, you have the default notes taking the app on your iPad, but if you don't like it, you might want to consider getting a similar app. For example, Simplenote. Simplenote doesn't have much to offer, however it does its job very well, quickly and efficiently. You just open it and you write everything you need to write - ideas, notes, lists. If your collection of notes grows, you can use special tags and pins, so you will find it easy to find the most necessary notes. Even though it's just a note-taking app, there's a collaboration feature - you can allow someone else to access your notes. All in all, it's a completely simple and wonderful app! Give it a shot. Going back to the menu and Notes taking apps is not all that simple. Evernote is a prime example of this. Evernote is really the organizer - it will keep all the ideas, notes, texts, and everything else you've written in one place. Finding the necessary notes is easy! Writing notes is also not that difficult. You can add simple text notes, photos, audio, voice recordings and more. What's probably best is that you can scan handwritten notes directly in the app, add some tags to scan, and then enjoy the full collection of your writings. The app can be synchronized between all the modern devices that exist today. He's very popular. So if what you need is to take and store notes, this is an amazing option for you! Back to the menu - If aesthetics is important to you, you may want to consider getting the Typing Writer app. The application basically simulates what has long been forgotten - a typewriter. It provides all the details that are related to the traditional writing - sounds, inability to correct errors instantly, and even a special brush to whiten errors. The best part of all this is that you can't fix anything until the job is done. This kind of improves performance, or at least makes you more accurate. In just one You get a good input machine on your iPad. Of course, all the texts produced can be saved and opened in any other word processor. If you choose this one, you'll just make the writing process more enjoyable! All other details can be taken care of later. Whether you want to try this cute way of entering words or not, it's up to you. back to the menu - Editorial is the editor of iOS. The app has many interesting frills in it, such as a built-in web browser, Dropbox integration, smart keyboard, and even a Python Script - all in order to make your workflow more efficient. If you want to make your email more automated, and if you often use this or that information in the same way, the app will help you save your time by doing half your work for you. The most difficult part is setting up your settings. So if you need a sophisticated, customizable email app that you can customize to suit your needs, Editorial is the perfect choice! This will open up many interesting opportunities that no other writing application has to offer. back to the menu - Werdsmith - a beautiful and simple app for writing. It has 5 themes to choose from. The design is really attractive. In addition to the design, the app boasts an excellent user interface and Dropbox integration. You can sync between all Apple devices. The peculiarity of this is that it is more suitable for writers rather than bloggers. There is such a feature as creating a portfolio - you can choose the best of your works and make them available to other users of the application if you want. You can also share your parts with your friends on Facebook or with your followers on Twitter. Last but not least, it's the ability to set goals - you can set a certain number of words that you need to write every day. So you'll stay motivated and keep going no matter what!
