The name of the Exam Title Council Appropriate ClassList Subjects Exam DatesExam Timeline Important Instructions Preparing Tips score good grades in exams Here we are with some of the training tips for class 12 students. However, these tips are applicable to all streams such as science, commerce, humanities (arts) and professional. Time Management: Before we start studying any subject, we need to have a proper schedule. You have two options to either follow the same schedule as provided by the board or make your own start training. Make the schedule so that you are not overwhelmed by yourself and give equal time to all subjects. Syllabus: Now, the schedule is all set. So, go through the entire curriculum of the first topic you are going to prepare. On the other hand, cover all the themes in one place to avoid confusion. Notes: When studying or preparing any subject, students are encouraged to make basic reports. For example, if you're preparing a numerical item, write down the formulas in one place. Also, if you are preparing a theory based on the subject, then take notes for important points that will be mentioned in the answer. Previous year Question Documents: Go through the previous year question paper once or twice. This will help you familiarize yourself with the exam model. Study Early Morning/Night: Analyze yourself that at what time you can focus more either early in the morning or into the night. Review: Before the exams, be sure to take a review of all the topics you have prepared. Revising before exams will help you remember things.
