Advanced (C1) Lesson Plans This inverted lesson plan touches on the topic of megacities and urban sprawl. Students will learn some vocabulary related to cities, discover some statistics and data and discuss the problems of modern megacities. Advanced (C1) Lesson Plans This Social Security Lesson Plan concerns UBI, i.e. universal basic income. Students will study a lot of related vocabulary as well as give their opinion on UBI and other social security issues. Advanced (C1) Lesson Plans This lesson plan about stereotypes includes tasks to learn and practice vocabulary, spark discussion and ends with videos about racial preferences in dating. Advanced (C1) Lesson Plans This technology lesson plan touches on the fusion of minds with machines, i.e. the brain and computer interface. It's based on a very interesting video that will definitely make your students want to talk. Advanced (C1) Lesson Plans This lesson plan about architecture is dedicated to a phenomenon called copycat architecture. Students learn some adjectives to describe places as well as watch interesting videos. Advanced (C1) Lesson Plans This surveillance lesson plan addresses the topic of employee monitoring software and calls into question the use of this technology. Students will do some word formation tasks, learn a new vocabulary and have plenty of opportunities to discuss. Advanced (C1) Lesson Plans In this lesson plan, students will study verbs to describe sounds in English and talk about annoying sounds, using phrases to express irritation. Advanced (C1) Lesson Plans In this lesson plan, students are learning an expanded TV vocabulary, discussing statistics related to binge watching and talking about their TV viewing habits. Upper Intermediate (B2) Lesson Plans This sheet focuses on vocabulary. In addition to natural disasters, students will also study the words and phrases commonly used in news headlines. Advanced (C1) Lesson Plans Learn what bothers Bill Gates the most and teach your students some fear-related vocabulary, useful adjectives for expressing opinions and practicing them with multiple speaking activities. Advanced (C1) Lesson Plans Our selfie lesson plan focuses on forming words, listening and language directly from Instagram. All this is based on a genuine street interview with New Yorkers. Advanced (C1) Lesson Plans This ESL lesson plan on films is based on a video review of pain and fame. Your student will study the new vocabulary and write a short review of the film themselves. An advanced esl conversational class can be a bit tricky to teach because sometimes it is difficult to see any improvement in your students. It's with beginners you can teach to read! Or by studying the entire vocabulary of the weather for the first time. It certainly motivates! Advanced students: Not so easy sometimes! I remember when I first first teaching, and I thought that higher-level students would be easier to teach than beginners. After all, we could communicate with each other easily. Over time, I found that this was not the case at all. Although basic communication was not a problem, it is difficult to do things in the classroom that challenge them enough. I've found that it can be very helpful if you use genuine material and challenge your advanced students in this way, rather than just relying on ESL tutorials that are often too easy and often quite boring. Maybe you also found that these books cover the same themes over and over and over again? Movies, sports, family, jobs, weather (more ideas here: ESL Weather Activities), cities, etc. Switch to one of these lesson plans and talk about some real things! For what age group are these lessons? Here are five lesson plans I used in my intermediate and advanced English speaking classes. I have taught English at Korean universities, so the lessons are focused on this group of students. However, you can easily adapt them to higher-level high school students. I also used them for private business training classes. The topics are probably too abstract and not so interesting for those under the age of 15 or 16. So, keep this in mind if you plan to use them and you should be good to go! How long does classes last for your ESL Conversation class? The minimum amount of time is about an hour for most of these lessons. Any less time and you will just get through reading without leaving you time for any substantive discussions on these issues. That's the most interesting part though! For classes of 3-4 hours, you can add some interesting learning project based on tasks at the end related to the topic. Get your creative juices flowing to come up with something fun for your students. Watching a follow-up video is often ideal. Or include some focused pronunciation practice in your lesson. Here are some of my best ideas for this: ESL pronunciation games and activities. Lesson plans for students in any country Most readings in these lessons are from Breaking News English. They cover a wide range of skills, from vocabulary to grammar, writing and listening, but mostly focus on understanding reading and conversation or discussion. You can use them with students around the world. Technology and Sleep Is good for mobile phone zombies in your class. Wake them up with a dose of reality about the impact the technology has on their health. Google Investing in Renewable Energy is an interesting lesson plan for science or engineering specialties. Other students found it interesting, so give it a try. If only was a million dollars (song Barenaked Ladies) This song is one of my favorite ESL listening and talking lessons when we study the terms (if). (if). Suitable for high school for adults, and it can even work for high beginners, with a bit of handmade from the teacher (official term scaffolding!). However, this lesson plan is best suited for intermediate levels because you can get into some really interesting discussions. Technology Conversation Lesson Plan Is Best for Teens or Adults at Intermediate Level or Above. Lesson plans for students in Korea Try these topics specifically for your Korean students. If you teach business English, the first two are kind of perfect and will lead to very interesting discussions with your students who may know more about this kind of thing than you do! Cigarette prices double Korea's agricultural subsidies to an aging population My students are beginners or intermediates... will these lesson plans work? If you don't teach advanced ESL lessons, you may wonder if these lesson plans will work for you. In fact, many of the students I taught in Korea were more in-between, and these lesson plans worked well for them. You may have to give a little more time to read, and a little more support for things like grammar and vocabulary, or discussion time, but they should still work well. However, for beginners, you'll want to consider other options. The testimonies will only take a beginner the entire class (or two) to pass! There's just too much in the way of complex grammar and vocabulary that requires basic working knowledge in both of these areas. Of course, use your discretion and tailor these lesson plans to suit the needs of your students. How do I plan a TEFL conversation lesson? If you're a little shaky at scheduling a lesson, don't worry, many TEFL teachers until they get a bit of practice, or take a course like CELTA. The ESL Conversation Lesson Plan has several basic steps, including the following: Setting the Context Work on the Meaning of Form Pronunciation Practice Controlled Practice More Free Practice Follow or Homework (optional) If you want to learn more, check out the following article: ESL Adult Lesson Plan for Conversation Classes Need More Ideas for Teaching English to Advanced Levels of Students?
