Download the APK Black Desert Mobile file and start your adventure today. The best role-playing game on Android is ready to be downloaded to the device. Table contentsAs we all know the most anticipated mobile version of Black Desert - Black Desert Mobile is open for download this year in Korea. And all the more exciting is that the game aims to expand the impact on the international market this year.2018 is a year of graphics and gameplay games that are different from the rest of the world. This is also the year when many computer games are transformed into mobile platforms such as Tera, Blade and Soul, and the latest Black Desert Online. Black Desert Internet is one of the most beautiful MMORPGs on PC. So when Korean publisher Pearl Abyss showed up on a mobile platform with a trailer showing graphics at a nominal level, even more beautiful than the PC made gamers can't stand still. At The Gamescom 2017 event in August, some information from Black Desert Mobile (검은사막 모바일) was released by developer Pearl Abyss. The game is likely to start in Korea in January 2018, and the current pre-registration has begun. Black Desert Mobile is not just a miniature version of the Black Desert. It's a whole new experience as well as a completely different gaming experience. PlotBlack Desert Mobile tells the story of the conflict between two warring nations, the Republic of Calfeon and the Kingdom of Valencia. Previously, the four main districts, Calpheon, Serendia, Balenos and Mediah, were peaceful. Everything changed when merchants from Valencia brought a black plague, millions of people died. People understand that Valencia has caused everything. Calfeon formed a coalition and began its 30-year war. GameplayBasically, playing the game, players will be transformed into one of the five main classes: Valkyrie, Witch, Ranger, Warrior, Giant. These characters are extremely expressive, and help players easily guess the feature of each character. The Game Black Desert Mobile has a certain difference, is the highlight that makes this game create its own charm. With an untargeted mechanism similar to the PC version, combined with a number of special skills that require the player to aim at the target (such as Blade and Soul), along with jumps, dodging, will bring fierce battlefields with a crazy pace that you are unlikely to find in other mobile gaming products. In Black Desert Mobile, players can use a total of 8 skill cells. Since the number of skills is greater than the cells available, the player must choose his preferred skill and place them in the cells. Moving in the game is similar to the PC version, players can jog or horseback riding. In addition to graphics and high-speed gameplay, Black Desert Mobile also offers many other interesting features including pet training, gardening, collecting, fishing, and more. nature, allowing you to create rare items to use or trade them with other players. CharactersBlack Desert Mobile has been introduced to have five classes of characters including: Titan, Huntress, Paladin, Knight and the newest Is Hashashin. Each class of characters has its advantages and uses a separate weapon. This creates their advantages in war. Some weapons are power-oriented, some are speed-oriented, and some can attack enemies over long distances. In general, the plot and gameplay are not too different from the original version, but each class of characters has different equipment, weapons, combat skills and some special missions. In addition, Black Desert Mobile also lets you customize your character with a high level of detail. You can change height, body composition, hairstyle to details like eye style, skin color, eyebrow length and more. Build your CampBaysides, fighting enemies, you can relax and have some fun with your own camp. There you can improve skills, build buildings, help workers to expand and modernize the camp faster. Boss huntingBoss hunting is one of the most popular activities in Black Desert Mobile. Bosses often appear in certain locations around the world, and players can gather there during boss's caviar, hoping to kill him. If you kill Boss, the player will receive valuable rewards, dumped by him. He is known as the Lord of Corruption . He will constantly use the opportunities to destroy the world. Don't let Kzarka reach his goal because you are here to kill him. GraphicsBlack Desert Mobile has an excellent graph platform thanks to optimization as possible, the game also uses engine technology has been successfully applied for expectations on the Black Desert PC version. Not only that, this MMORPG also adds some materials dedicated to the mobile platform, so that players can expect a new experience completely different and unexpected. You will see the shape, the movement of each character is exceptionally flexible and beautifully beautiful, which makes a strong impression on the viewer. Soon, it is likely that Black Desert Mobile will become the best mobile game ever on a mobile platform.
