6. Samsung Galaxy A30s Release: September 2019 Screen: Super AMOLED 6.4 inches, 720 x 1560 Pixel Chipset: Exynos 7904 (14 nm) Processor: Octa-core (2×1.8 GHz Cortex-A73 and 6×1.6 GHz Cortex-A53) GPU: Mali-G71 MP2 Internal Memory: 32GB 3 3 RAM, 64GB of RAM, 128GB of 4GB of external RAM memory: microSD, up to 1TB (dedicated slot) Rear Camera: Triple 25 MP and 8 MP 5 MP Front Camera: 16 MP, f/2.0, 26mm (wide), 1/3.1, 1.0"m Battery: Unbranable Li-Po 4000 mAh More specifications... Check the prices at Shopee Price Check on Lazada With prices of number two million for the 4/64GB option, the Samsung Galaxy A30s is one of the cheapest Samsung phones equipped with NFC. In general, hp offers a good connection. The rear camera of the Samsung Galaxy A30s is quite taken into account here. Both the main camera and its ultra-camera are rated capable of producing a good grip. The same is done by his tertiary camera, because it is able to capture objects with a professional bokeh effect. Another part of the L.S. support is the fingerprint, which has been integrated with its super AMOLED display and large battery capacity with robust strength and supports 15W. 7 fast charging. Nokia 5.3 Release: April 2020 Screen: IPS LCD 6.55 inches, 720 x 1600 Pixel Chipset: Snapdragon 665 (11 nm) GPU: Adreno 610 Ram: 6GB Of internal memory: 64GB External memory: microSDXC (special slot) Rear camera: 13 MP th 5 MP 2 MP front camera: 8 MP Battery: Untied Li-Po 4000 mAh More specifications... Check the price in the Lazada Nokia 5.3 variant is present in Indonesia 6GB of RAM and 64GB of ROM, which supports microSD. The price itself is in the Rp 2.8 million range, and can be a great choice for those who want a reliable NFC phone. This HP has a sweet design and an elegant color choice typical of Nokia. Back consists of four modules arranged in a circular manner with an LED flash in the middle. Those who are tired of placing the camera vertically on the top side can try this HP tasting. The performance of Nokia 5.3 with Snapdragon 665 chips is considered capable of competing with other smartphones in its segment. Hp's energy sector is also quite reliable with a 4000 mAh battery, but without fast charging.

8. Samsung Galaxy A50s Release: September 2019 Screen: Super AMOLED 6.4 inches, 1080 x 2340 Pixel Chipset: Exynos 9611 (10 nm) GPU: Mali-G72 MP3 Ram: 4/6GB Internal Memory: 64/12 External GB Memory: microSDXC (special slot) Rear camera: 48 MP and 8 MP and 5 MP Front Camera: 32 MP Battery: Untied Li-Po 4000 mAh More specifications... The Price Check for Shopee Price Check on the Lazada Samsung Galaxy A50s is one of the middle class phone that offers pretty complete specs in its segment. HP is equipped with features that many people want, whether it's multi-camera rear settings, high-resolution OLED display, extensive internal memory, a high-capacity battery and of course NFC for increasingly crowded digital transactions. According to GSM Arena, the high-quality Samsung Galaxy A50s display is one of the best in its class. If you're a content connoisseur, this HP deserves to be shortlisted for three million. GSM Arena also mentions that the camera, although not the best, has a good overall performance. Similarly, the design looks attractive and durable, even if the body is made of plastic. Another interesting part of this HP is the long-lasting battery with fast-charging 15W.

9. Redmi Note 9 Pro Release: May 2020 Screen: IPS LCD 6.67 inches, 1080 x 2400 Pixel Chipset: Snapdragon 720G (8 nm) GPU: Adreno 618 RAM: 6GB Internal Memory: 64/128 GB External Memory: microS DXC (dedicated slot) Rear camera: 64 MP and 8 MP - 5 MP - 2 MP Front camera: 16 MP Battery: Untied Li-Po 5020 mAh More specifications... Price check in Shopee Price Check on Lazada One of the advantages of HP's number three million is the availability of NFC to support digital transactions, which are now a trend of some people. Other benefits like the gsm arena mentioned include a tough body with a Gorilla Glass 5 coating front and back and made a splash resistant. Hp is suitable for content connoisseurs because it has a spacious and bright Full HD IPS display with HDR10 support. The tah is just that its gigantic battery capacity offers excellent strength plus 30W fast charging support that can shorten the time of recharging quite a lot. Aside from its flaws, which only come with standard screen upgrade speeds, the Redmi Note 9 Pro is one of the best players in its class for performance as well as the camera. Meanwhile, instead of fingerprints integrated with the screen, the user must be ready to find a sensor installed on the side.

10. Samsung Galaxy A31 Release: April 2020 Screen: Super AMOLED 6.4 inches, 1080 x 2400 Pixel Chipset: Mediatek MT6768 Helio P65 (12 nm) GPU: Mali-G52 MC2 RAM: 6/8 GB Internal Memory: 128GB External Memory: microSDXC (special slot) Rear camera: 48 MP and 8 MP 5 MP and 5 MP Front camera: 20 MP Battery: Untied Li-Po 5000 mAh More specifications... The Storeee Price Check on the Lazada Samsung Galaxy A31 comes in two RAM variants, namely 6GB with prices of less than four million and 8GB in the number of four million. So what is hp support other than offering NFC features? According to GSM Arena, this HP has a rugged look as well as a unique design and is easy to recognize. Meanwhile, like many other Samsung PHONES, the Galaxy A31 also has a high-quality display, bright OLED panels and precise colors. It also has an excellent battery life with a reliable charging speed. Another part of the hp support is one loudspeaker that is said to offer solid performance in its class. The Galaxy A31 photography sector is also cool, especially above average portrait cameras. The front-facing camera is also honey for those who like to take selfies and ngevlog. Here are 10 hp lists with cheap NFC features. The cheap ones here are certainly varied, but since NFC is usually present in HP's expensive flagship class, it clearly makes the presence of NFC in these 10 HP categories affordable. Available.
