Download from Lexus.comManual DescriptionEco drive mode: Helps the driver accelerate in an environmentally friendly manner and improve fuel economy by moderate throttle characteristics and by controlling the operation of the air conditioning system (heating/cooling). When not in Eco drive mode, if the driving mode select the switch has turned to the left, the Eco drive indicator will be turned on. Sport S controls the transmission and engine to ensure rapid and powerful acceleration. This mode is suitable for flexible driving response, for example, when driving on roads with a large number of curves. When not in SPORT S mode, if the driving mode select the switch turned to the right, the SPORT S indicator will come on. SPORT S mode: Helps ensure steering performance and driving stability while controlling steering and suspension in addition to the transmission and engine. Suitable for more sporty driving. When in SPORT S mode, if the driving mode choose the switch turned to the right, the SPORT S indicator will come on. Guide to Resources and Guarantee Explore Lexus Guarantees Information.
