The SUFT definition allows for action categorization, allowing subjects to choose effective STRATEGIES for SUFT. The set of indicators consists of two levels: impact indicators, describing how urban freight transport violates the principles of sustainability; and performance indicators that describe the different categories that determine the characteristics and effectiveness of the urban transport system. The literary study analyzes the characteristics that determine the effectiveness of the activities of the subjects of the urban freight chain. Knowing the current state and improving the capacity of the urban freight transport system are prerequisites for identifying successful strategies and implementing effective action. Turnover, money paid for transportation; Cargo turnover, the one who charters the ship. (Trial. Old Dut. vrecht, vracht form.) The Dictionary of Nautical Termsfreight Former English Maritime Law he became the mother of wages, as the crew was forced to moor the ship on his return to the docks or lose them. So strongly supported by the axiom that if the ship was lost by misfortune, storm, enemy or fire, then wages were also lost, because the cargo from which they were to arise, died with it. This austerity measure was intended to increase the concern of seafarers for the welfare of the vessel, but is no longer withheld, since the Commercial Shipping Act enacts a law stating that the right to wages does not depend on the earnings of the cargo; in the event of a crash, however, proof that the man had not done his best bars his claim. Also for the burden or lading of the ship. (See. DEAD-FREIGHT.) In addition, a fee of 50 salts per tonne previously paid to the French government by masters of foreign ships enters or leaves several ports in the kingdom. All ships not built in France were foreign if two-thirds of the crew were not French. Dutch and Hanse cities have been exempt from this duty of cargo.---For the transportation of the ship, funds to use it to carry cargo and passengers.
