You're browsing old versions of Facebook. Here you will find APK files of all versions of Facebook available on our website, published so far. The latest version: FOLLOW USA Facebook is the official Android app for the iconic original social networks par excellence. Once again, this app is here to simplify your Facebook experience by providing all your favorite features from one place. Essentially, this Facebook app has all the same features as its original version of the browser, the only major difference you'll notice is that you can't play Facebook games on it. Browse your timeline, upload and save photos, change your status, comment and all the lot - from everywhere. One of the best features of this official Facebook app is the ability to share all kinds of content directly from your smartphone. You can upload photos and videos directly from the gallery directly to your Facebook account. Facebook for Android is really a must-have app for those who are quite active in the world of #1 network. Although, it comes with one (but basic) failure. You can't access your direct Facebook messages from this app, but rather you'll have to go the extra mile and download the fully independent Facebook Messenger app (also on Uptodown) to check your Facebook posts from your smartphone. Erika Okumura How to deactivate social network accounts If you want to take a break and temporarily disappear, you can disable your social networks for a while. Deactivating your account won't delete your profile, and you can return whenever you want, keeping your friends and followers as usual. Here we explain how to deactivate your Instagram, Facebook and Twitter accounts. More How to activate the new dark mode in Facebook Messenger Many of us Android users are constantly lusting after dark mode in all our applications. Fortunately, it is becoming more and more common to see it as a primary function. Facebook has taken note of these requests, and it recently included dark mode in its official Facebook Messenger app for Android. However, in order to activate it, you have to use a small trick.
