Ragnarok m eternal love archer skill guide

So you decided to play Archer in Ragnarok Mobile. This comprehensive ADL build guide is part of a series that will cover everything you need to know to advance through archer's tree work. Congratulations on choosing Archer as your job of choice. Now you are on your way to becoming an absolute DPS beast. To help you along the way we are going to cover statistics distribution, skill selection, recommended alignment (grinding/agriculture) locations and gear progression. Beginners? Check out our new Player Guide Archer is the first work on the tree that we're going to cover. You will definitely spend the least amount of time in this tier. But getting things in from the beginning will make your progression. easier and faster. Statistics How ADL build their basic stats will be Agi, Dex and Onion. However while you are still an archer you want to focus on Agi and Dex. There are many ways you can highlight your Archer stats. However, I think it's better to lean more towards Dex than Agi. The 3:2 stat distribution ratio is a good start (e.g. 30 Dex and 20 Agi) The reason you don't want the ratio to get too far apart is because the cost per statistic increases as you level them. Each 10th stat point will cost 1 attribute to level. Don't worry about getting it too perfect early on. You will eventually have access to unlimited free skills and stat resets. The onion will be more useful later as Crete needs damage and atk speed to be useful. Skills as an archer, you will have a total of 40 skill points to highlight. Below are the recommended skill distributions: SkillLevelNotes Elementary Arrow (Passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk No100 Auto Atk (When Using Onions) Vulture Eye (passive)10'30 Atk (When Using Onions) Vulture Eye (passive)10'30 Atk (When Using Onions) Vulture Eye (passive)10'30'Atk (When Using Onions) Vulture Eye (passive)10'3 Arrow Shower over Double Strafe. Getting Double Strafe in cast time makes it less useful to build ADL (as a bonus you don't have to worry about managing mana). Also, being a spell of AOE, Arrow Shower is especially useful when having to kill a group of mobs. For example. Rift quests and during the Hunter Job Changing quest. As for the order of importance: Elementary Arrow (Max First) Eye Vulture/Eye Of the Cross (You can align these evenly together)Arrow shower if you end up rolling any Saint Bow is particularly good early on as it not only provides 10% of Base Exp to killing monsters, but also the weapons stats itself improve as you level. You can replace it after receiving the crossbow 2 Tier IV Slot (you will also need several cards to use extra slot). Cross BowSpeaking crossbow, if you have no luck starting with St. Luke's, a crossbow will suffice. Below is a set of beginner gears you can aim for. All equipment can be manufactured after you have the necessary materials: EquipmentCrafting EquipmentCrafting Location cross onion (Weapon - Onion)5x Iron 100x JellopyProntera Fox Wrist Guard (Off-hand - Bracer)15x Coal 150x Sticky MucusGeffen Cotton Shirt (Ments)100x Rotten Bandage 180x FeatherIzIude Shoes (Footgears)15x Coal 15x IronGeffen Looking for more equip information? Check out our hardware development guide. Accessories are quite expensive early on. If you're not lucky enough to have St. Ring feel free to put the filling of this equipped slot for now. Otherwise, you can complete the Rifts to try your luck at plundering some: Level 15 - West Gate Rift (Flower Ring)Level 30 - Underwater Cave Rift (gloves, brooch) Alignment/Agriculture MonsterLevelSizeElementWeakness (Base)/HPNotable DropsSuggested Location Worm17MEarthFire0.402JellopyLabyrinth Forest Skeletons30MUndeadFire0.127Steel, Awakening Potion Sunken Ship Goblin Archer37SWaterWind0.096Sty MucusGoblin Forest Steam Goblin39MWindEarth0.071CoalGoblin Forest You will be approximately between the base level of 10-40 as an archer. Rockers and Wormtails (Prontera North). These monsters will provide a quick path to Hunter. This is because both Rockers and Wormtails have a very high exp to Hp ratio, making them ideal for alignment. Of the two, Wormtail has a higher ratio. However, you may factor in the fact that rockers have a higher level (higher threshold exp penalty). DropsAs for drops like rockers and Wormtails give pretty garbage. One tip is to sell your loot quickly. It's easy to get items like Jellopy and Great Nature price drop quickly. Focus on aligning monsters as skeletons give better loot (steel, awakening potions). While zeny is super important in Ragnarok Mobile, it is often more recommended to focus on levels early on. This is because higher levels will give you the stats and skills you need to farm higher level mobs. These higher-level mobs are usually even better to loot, especially if there aren't many players farming them yet. Base level 15? Unlock The Mission Council's questbase Level 20? Unlock the training ground. Take your first pet. Once you hit the 40 level, it's time to re-hunt to overcouche into Hunter. Next: ADL Hunter Guide boot agi-dex-onion (ADL) sniper guide ADL Snipers can be compared to agi crit killer cross, except that snipers have a class range, and as long as they equip the bow, they can take down any enemy they encounter. This build can adapt to any situation like farming, grinding, hunting the boss, etc. ADL build a sniper is one of the highest damage class in the game that their normal attack (crit) can Achieve unimaginable 250k damage!
