More My Little Pony Magic Princess Review About My Little Pony Magic PrincessDarkness is a state where there is no light. Yes, it's about what Twilight Sparkle and her friends want to avoid in Gamelofts My Little Pony: Friendship is a magic (free) game. This simulation game is enough to remind me of the name of a game with a similar game system, Tribes. We have a duty to build Ponyville and save it from the eternal darkness caused by Nightmare of the Moon, an evil unicorn who is the sister of Princess Celestia. And in the construction of our own Ponyville, we will be given a number of tasks that must be completed. Hmm, maybe you could say how to simulate the game as well as RPG? This cute and casual game will feel more exciting when played with my Little Pony Magic Princess mod apk. Twilight Sparkle is a nerdy unicorn that is quite difficult to get along with. letters only

with his breath. He then realized that there was a danger that would befall them, namely the release of the Nightmare Moon from its conclusion to the moon. And of course, The Nightmare of the Moon has been released. Using the help of New friends he got in Ponyville, he finally tried to stop Nightmare Moon from his plan to replace daylight hours with night, forever. This game starts from there. Ponyville has been shrouded in night darkness, and Twilight Sparkle is required to conquer the darkness by collecting 6 elements to form Harmony. Yes, you, like Twilight Sparkle, are bound to defeat Nightmare Moon by collecting unicorn friends and demanding every item one by one. Starting with a good and very entertaining tutorial, My Little Pony: Friendship Is Magic managed to get me to understand this system of play in a relatively short time. The essence of construction, and other points, expanding its area, expanding into darkness. Unlike the movie, in this game you have to pay with bits so that one dark area can be destroyed. The exchange environment available in this game itself there are 2: Bits (gold) and gems (diamond). For those of you who are familiar with games like this, you surely know what the difference is between bits and gems right? In addition to building, this game also provides a lot of fun mini-games such as: play throwing balls, clearing clouds, smashing balloons, and others. Interesting. The graphics in this game also I think are very interesting. Why? Because it looks like it comes with different colors that are very bright. You won't see anything dark or dark in My Little Pony: Friendship Is Magic. In fact, while our job is to dispel the darkness, the darkness itself is not as dark as you imagine, the graphics of each unicorn are presented very well. Appearance gives the impression that the graphics are not rigid. Very handy for the eyes to see. Construction graphics and the environment are also presented very well. He didn't give it a cheap game or nuts. And with these good graphics, this game can definitely make you ready to linger. My Little Pony: Friendship is a magic fun game. It will provide a good experience in the game because of the gameplay, graphics and interesting history. And if you're a gamer who loves light stories but is still good, my little pony: Friendship is magic is right for you. The message contained in it is very good and should be applied in everyday life. He taught the audience what the true meaning of friendship is and what we should do with our friend. Great And if you think the game feels a little feminine to you, first try playing the game. Despite the fact that almost all female characters (in other words, female unicorns), you don't need to worry if you lose your temper by playing this game. Conclusion Moreover, I play with my Little Pony Magic Princess cheats, so I get a big profit Unlimited coins that I can use to buy beautiful items. As a VIP 15 its also fun because it stands out and looks different. - Google Play: Gameloft - MY LITTLE PONY: The Magic Princess - Help from Related Games - My Little Pony Rainbow Runners - My Little Pony Celebration - Frozen Free Fall - My Little Pony Pocket Pony - My Little Pony: My Little Pony: Harmony of the questDown, MOD APKDirect SSL Connection Connection
