Okay, be sure to join our telegram channel and share this with your friends. GTA 5 (Grand Theft Auto V) is one of the most popular Games Rockstar Games. Maybe you played in your computer. But what if you can download GTA 5 Apk on your Android smartphone too? Well, yes, you can play your phone as well. In this article, you get GTA 5 Apk and data to make this game work. We all played a lot of GTA games as a child. One of The Most Favorite Gangster Games is Vice City. Remember? Yes!, no one can forget that little town where we are free to do anything. We did a lot of offense in all gta games no matter what game it was. They recently launched the GTA V after a long time. Before that, GTA IV was released in 2008. Well, the first GTA game was launched in 1997, which was the Grand Auto. Initially GTA 5 was only released for Xbox and Play Station, but now it's available for Windows and mobile phone too. Well, it's unavailable. Android is official, but many people modded this game and made this game able to work on Android OS. Now you can enjoy this amazing high graphics game on your mobile phone. Because of the high quality graphics, it needs a high-performance computer game setting. So no one can even think it will work on an Android phone because they don't have enough opportunities to download this game. We have also been placed Vertigo Racing Mod APK, be sure to check it out. Well, it's just a myth. If you have an Android phone with good performance, then you can play GTA 4 on your Android mobile too. Also, take a look at the GTA 3 app. GTA v Apk (21.1MB) GTA 5 Apk and download data In this article, we are going to share GTA V Apk and its data file with you through which you can easily play GTA 5 on any Android phone. There is no need to root the phone, as many people think that there is no way to install PC Games on Android without root access. After reading all this tutorial, you will be able to install and launch our favorite GTA series of games i.e. Grand Theft Auto Five, on your phone. After seeing the great interest of Android users to GTA 5, Rockstar decided to make this game possible to run on Android OS. THEY have developed and launched GTA 5 Apk in beta. No matter, it's a beta because it's enough for us. There is good quality graphics in the game, but you just need a bit of good phone performance to pay for this game on it. You need to download GTA v Apk - data and OBB file, and all of this needs almost 3GB of storage in your phone. :-p Shocked? Can! But yes, you have to manage enough storage space in your Android, so I've already said try it on a good performance phone. The Information App Title version of THE GTA V Version v1.09 Android Version Requires 4.0 Total downloads of 7,000,000 App Size 21.1MB and 2.6GB Developer Rockstar Games Requirements to play GTA V Apk on Android GTA V will not work on any normal Android phone. You should need a good performance phone running on Android OS to play this game on it. First of all, you should download some useful files on your device and then follow our tutorial to install GTA V Apk on your smartphone. The first thing you need is an Android phone with good performance. After downloading it below provided all the files in it. Here is a list of all the necessary files to install GTA 5 on Android: Download GTA 5 APK and data on Android GTA v Apk (21.1MB) If you run into any problem in downloading these two files, then you can try Mirror Links Below. But make sure you download all three Apk files, data and OBB files. In the above link, we provided data and OBB in one file. But now, you get both in a different tzip. So don't get confused as to why here are only two mirror mirror files Has 3 files. Both are the same files. Mirror Links Download GTA 5 Apk (21.1MB) These are all the necessary files that need to be set to run GTA 5 games on your Android phone. I know it's a very large file, but you have to think it's not a normal Android game. This is one of the best games in the world that is released by Rockstar Games. Well, if you want to enjoy this amazing game on Android devices, then you have to download above provided that all the files are in your phone first. Whenever you're ready with all these files, you can move on to the basic steps to install and run this app on your phone. Features gta V game If you ever play GTA 5 on your computer, then I don't think there is any need to tell you the features of this game. But you're playing it for the first time, then let you know what amazing features are being added to this new Rockstar Games game. There are high quality HD graphics. There is good player control over the game. All game characters, cars, samples are awesome and looks like real. There is awesome vehicle driving control, it is much better than any other GTA game. It has a lot of interesting missions, you will get more interested in the next whenever any mission get completed. There are some new features that are only added to this version of the GTA series. You'll explore more of its amazing features after playing it yourself. I'm sure you'll fall in love with the game after playing it for the first time on your Android phone. There is no other game comparable to GTA V in the gangster series. Now it's time to let you know how to install gta V on your Android. How do I install GTA 5 in any Android Phone? First of all, you need to download all the necessary files on your phone before you proceed with this part. Check out the Requirements section for GTA 5 Apk and Data. When you have successfully downloaded the entire file, you can start the next steps, the data below, to install and run the GTA V on your smartphone. 1) First, install the GTA 5 Apk file that you downloaded from above. If you have never installed any Apk file on your phone, then you should allow the installation of applications form unknown sources. To allow this go to the settings of the zgtgt; the security of the tick sign on an unknown source option. Allow installation from unknown sources 2) Now, go to the Play Store and download the Es File Explorer App in your phone. Using it, we have to extract the data file in this game folder. 3) Go to download folders in the Ex File Explorer app, you'll see the GTA 5 Data Zip file there, which is called com.rockstargames.gtasa. Now, extract this zip file on Android. (If you don't have an OBB in your Android folder, create it's a new folder and call it OBB and remove the file in it.) That's it. Now open GTA 5 Apk and Voila!!! Your GTA V (Beast) was launched without any errors on your Android phone. No No. A simple process? To me, there is nothing difficult to install and run this game on any smartphone. All you need is an Apk and data file that I've shared with the mirror too. I recommend you download these files using a wifi connection because it's not easy to get those big files on your mobile data. Well, if you have a super fast internet connection then you can try it. Download GTA 5 for iOS devices If you're using iOS Device and are looking to download GTA 5 for iOS, you can use the link below to download it easily.
