The Breeding of The Dragons of Breeding is a feature that allows the player to mate two owned dragons (minimum level 4 each) to create dragon eggs from different breeding dragons. This is done in one of the breeding structures and allows players to get dragon eggs without spending gold or gems. The game randomly selects the resulting egg from the features available with the chosen parent pairing. After a predetermined breeding time, the egg can be placed in The Hatchery. After a predetermined hatching time a new dragon can be placed in a habitat, kindergarten, or Dragonarium. Other breeding goals are: Increase the production of gold To acquire the best dragons to fight Full Dragon Book Collections and get related rewards to earn income and experience by selling hatched dragons. The gen (eration) classification of each dragon is a DCW-made device to help players determine the probability of breeding this dragon. Credits -- andbad. On July 26, 2013 (LaW update) the breeding system was changed. Pure Dragon is now a rudimentary dragon, and it can be bought in the Store. Due to the change in Pure status, he and Pure Hybrids are now very easy to reproduce. Sometime in mid-2013, Deus Vault was removed from the store. Many of the dragons from The Deus Vault are now breeding, and are now classified as breeding exclusives. At approximately 6:30 a.m., September 23, 2012, on Tuesday, an official update on Dragon City's Facebook page showed that Rarity Boost increases the chances of getting a rare, legend or pure dragon by 50%. The probability of receiving Pure has since (LaW update) changed. Breeding times have changed. Previously, breeding time was calculated as the total breeding time of parents. Currently, the breeding time of most dragons is equal to the time of the hatch. To determine the outcome of your breeding combination, refer to the breeding/hatching time on the Breeding/Review page and the appearance of the egg on the Egg page. It was released on Facebook on May 8, 2012, iOS on March 21, 2013 and Android on July 3, 2013. In August 2013, the game was also released on Intel Atom tablets for Android. Dragon City's gameplay follows the players to raise their dragons and create a city full of on floating islands. Gold produced by dragons, which can be used to buy and modernize buildings and (Habitats can also be upgraded with elementary tokens at later levels). Farms exchange gold for food (they look like tomatoes) that can be used to align the dragons that develop them, improve strength (health and power) depending on the rarity of the dragon, and increase gold production. Breeding allows two levels 4 and above dragons to produce a hybrid dragon or legendary dragon. Gems are a premium currency that can be collected through in-app purchases; and other tasks for collecting gems. Arenas, leagues and quests are different types of battles where one of the player's three dragons fights one of the opponent's three dragons. When in combat, dragons may have the ability to cause severe damage (but can also have weak or no damage, as well as normal damage), depending on the elements of the dragon. Leagues allow the use of any combination of dragons, including only one or two, assuming they have reached at least level 4. In addition, Arenas and quests may have additional requirements, such as items or rarities. Once the player has reached player level 27, the ancient world appears, which is an area of the game where gold can be exchanged for crystals (ruby, sapphire, topaz, emerald, onyx, diamond) that can be collected from mines that can be used to call ancient dragons. The craft station was used to make crystals equivalent to the current crystal with numerous untreated crystals and previously created platinum crystals. Platinum is generated by ancient dragons just as ordinary dragons generate gold. From October 2020, 1,393 dragons comprise the main elements of the dragon Terra, Flame, Sea, Nature, Electric, Ice, Metal, Dark, Light, War, Pure, Legendary, Primary, and Wind, while the ancient elements of the dragon Are Beauty, Chaos, Magic, Dream, Soul, and Happy; There are nine dragon-keepers (one tower on the island for islands from 1 to 9) used to enhance aspects of the entire game; and there are 18 ancient dragons in the Ancient World. In December 2012, The Next Web announced that Dragon City was ranked 2nd in 25 Facebook games with the highest rating this year. Notes and b c Dragon City previously could also be associated with Facebook, giving players the Reward of Dragon Elements and 10 Gems, as well as keeping their progress. However, the Facebook version is currently closed. Inquiries - Scott Rayburn (May 30, 2013). Rare Hybrid Dragons rare hybrid dragons above combinations that I would use to get rare hybrids. Firebird (Flame Nature) - Star (Terra Electric) - Gammy the Middle Ages (Flame Metal) - Alpine (Terra Ice) - Armadillo or Cool Fire or Red Woods Football - Petroleum will give you a chance at Leviathan. There are other combinations. Any war war and the marine hybrid will also produce the same result. Poo is no longer a rare hybrid and is actually an exclusive dragon. The oil and pirate dragon are now regular hybrids after the Light/War update in July 2013. Photon (Light-Electric) - Rattlesnake (Nature - Dark) - Fallen Angel there are also many other combinations that will give you rare hybrids. Legendary Dragons These dragons are extremely powerful and useful in dragon city battles. With the July 2013 Light/War update, you will need to breed clean or clean hybrids together to get the legendary dragons a chance. For example: Pure Pure Flame Pure Ice - Pure Dark Pure Terra - Pure Metal Pure Electric - Pure Nature New Breeding Time for Legendary Dragons 2 days and 6 hours. Pure Dragons Breeding Pure Dragons They can be a breed using any of the 4 legendary dragons. You can mix similar as well.
