Table contentNameHero WarsPackage.com.nexters.herowarsPublisherNEXTERS GLOBALCategoryRPGVersion1.94.8 (Last)Size75MMOD Features Unlimited Mana, Skill CDRRequiresAndroid 4.2As you know, Throne Rush is a very popular game on phones and Facebook platforms. This is one of the game strategies that I loved, so I created a lot of Facebook clone accounts to get more troops. Like Hero Wars, which has a huge number of players on Facebook. In addition, the game also receives a lot of positive reviews and is loved by players around the world. If this is your first time hearing about this game, please refer to some information about Hero Wars and mod versions of this game. The storyline of Hero War is set in a dark force that invades the Dominion and wants to destroy humanity. In the age of heroes, there are people willing to stand up to fight and protect the world for humanity at the hands of demons from evil lands. And you are one of those heroes who will fight to save the world. The gameplay of Hero Wars gameplay is very simple. You just need to build yourself a strong squad and participate in intense battles. Characters automatically move close to the enemy and attack. When the Mana bar is full, you can unleash the character's skills. It's simple, isn't it? You have to have reasonable tactics if you want to win. Finding the right time to release the skills of the characters is the key to defeating the big boss. Combine 5 heroes to create your squad. No hero is perfect, each character has different strengths and weaknesses. Some heroes have a lot of damage, some are strong in endurance, some can protect the whole team. The choice and location of the team reveal a variety of different tactics. In addition, you also have to update your hero by playing difficult stages. Create your squadIn Hero Wars, the squad can fight a maximum of 5 members. Initially you have a default hero from the system. The nature of the Hero Wars system is still very rich. But if you want stronger heroes, you have to gather through the challenge. If you call a hero, it means that the hero is already in your squad. The resources you collect in combat have many effects, so use them appropriately and avoid waste. This can help you summon heroes to the land of Dominion.Upgrade your heroesA RPG, the hero upgrade feature is indispensable. The complexity of the dungeon will increase, so you have to upgrade the powers of the heroes to overcome it easier. However, if it's just upgrading as usual to increase power, it's so boring. When the hero is updated, his appearance is more mature. In particular, the hairstyle, physique, clothing, weapon of the character you upgrade will when you reach the required level. Fighting epic bossesIn addition to the usual story mode, Hero Wars has other modes for you to earn resources and bonuses. With Boss Battle Mode, you can encounter powerful monsters and gather a lot of resources to upgrade for heroes. The battles are difficult, but the rewards are very attractive. GraphicsRegarding graphics Heroes wars, the design is very unique with the style of chibi. Maybe you think that heroes should be cool, should be created using modern technologies such as Unity or Unreal Engine. But, it's just 2D graphics. However, the cute design of Nexters Global attracts a lot of players. If you don't believe it, you can experience it yourself to see the uniqueness that the developer brings to the player. The trendy version of Hero Wars Is a Hero of War MOD version gives you Unlimited Mana and no CD skills. Get HERO WARS MOD APK 4. More HERO WARS reviewAbout HERO WARSIn 2020, mutants and aliens have invaded the earth. All the cities have been destroyed, aliens and mutants are destroying everything they encounter in their way, from agriculture, buildings, bridges, even the streets themselves. The Earth Army could do nothing to fight them. So now only Heroes can protect the Earth from them. Thus, several stories told by hero WARS: Super Stickman Defense, made by NAO-MIC. HERO WARS: Super Stickman Defense is a defense game where the player is tasked with guarding the Base of Heroes from the player so that it is not destroyed, attacked by monsters and aliens. To be able to defend the hero's headquarters, the player must send the heroes of the troops and kill the enemies that come to attack. The base of Heroes itself is not static, because it can use large laser weapons, as well as hit incoming enemies. This also led me to the advice to use HERO WARS mod apk. Of course, you will get unlimited gold and unlimited gems from there. Unlimited money that you have can be exchanged for unlimited energy or upgrade heroes to be stronger in battle. Mineral will fill itself, and depends on the strategy of the players, whether to choose to upgrade the headquarters of Heroes to get minerals faster, or want to hurry by sending the cheapest hero with as much as possible. Sometimes, there are also elements that fall on the battlefield, and players can use it to get a small boost, such as to make healing for the heroes of the troops, or even by using a barrier. When heroes meet monsters in the middle of the field, they will fight and kill each other. Meanwhile, on the right side of the screen, monsters and aliens also have a similar base and form a giant robot. To win the stage, the player must succeed to break his defense and destroy the robot. In addition to the usual hero modes for fighting aliens, HERO WARS: Super Stickman Defense also has an Arena mode to fight other players, aka vs. Heroes as well. This is not an online mode, because in fact the only opponent are AI, no other player will fight Live.Completing stage or even defeat an opponent in Arena mode will earn gold. This gold can be used for various types of updates as well as the purchase of a new hero. Some of these that can be updated include the headquarters of the heroes, the hero himself, and various impulses. As mentioned in the title, Heroes Who Protect the Earth in hero WARS: Super Stickman Defense is an artificial hero, a.s.a. Kw Hero. If you're a fan of DC comics and Marvel be sure to recognize these heroes. The Wolf, certainly Wolverine, Ninja Deadpool, Gunner is none other than Batman, Ironman droids, Steel Man, of course, Man of Steel aka Superman, Hawk Angel imitates from Hawkman, Shield, definitely Captain America, Spider-Man, Spider-Man, Thunder is the god of Thunder Thor, and must not be mentioned initially, because its name alone Each hero can move smoothly and attack according to the character they parody. In fact, The Heroes headquarters can move when it attacks, especially when using a giant laser that can destroy a number of enemies on the screen. Who said a stickman can't appear stylish and cool? HERO WARS: Super Stickman Defense is a free game that doesn't require an Internet connection. The game doesn't have an endurance system, but there's a microtransaction, buy gold. There are few advantages if a player turns on the Internet when This game, in the form of an automatic feature to collect money that can be collected every few minutes. With Easy, Normal and Difficult Choice difficulties for each stage presented, this HERO WARS: Super Stickman defense game will make you feel curious to continue playing and strengthen the hero strength they have. The downside of this game may be that the difficulty level will be higher and longer, and requires grinding to upgrade the characters to be more resilient. But, overall, this tiny game (only 43MB) is an exciting defense game that's worth a try. Conclusion But if you're already using HERO WARS cheats, then the above, don't need to think about anymore. Use your money to buy heroes so that your defense cannot be broken by the enemy.
