

Soundcraft efx 8-channel mixer manual

Soundcraft EFX8 is a superb inexpensive audio mixer featuring 8 mono microphone/entry lines and 2 stereo line input channels. Soundcraft EFX™ combines all the features of the popular Soundcraft EPM mixer™ with the built-in 24-bit Lexicon® Effects processor, AudioDNA processor® this mixer is also featured in many Digitech® and Lexicon processors, including the respected Lexicon MX400 processor. With over 25 years of experience, the Lexicon name is synonymous with the best reverb and handling in the business, providing the best quality effects not usually found in the console at this price level. The Effects section fits neatly into a compact mixing structure with effects sent on each channel. There are 32 effects to choose from with the tap tempo feature, 3 effects controls and custom store object settings. The effects of the channel-level clip are LED and the Mute feature gives the user even more flexibility. Lexicon Effects Section Key Features Built-in 24 bits of Lexicon Digital Effects Processor 32 FX Settings 3 Options Coders Tap Tempo FX Store Settings 1 FX to send on every channel FX clip LED and dumb features Custom Karaoke pre-installed Soundcraft EFX range faceted benefits from high build quality and excellent sound performance along with simple controls presented in clear and logical layout. Each mono input has its own 3-band equalizer and professional 48 volts of phantom power cables to all kinds of capacitor microphones. Stereo channels each have 3 groups of equalizer. The PEAQ signal monitoring has resulted in multiple signal take-offs to observe congestion in several parts of the channel strip, and the brightness of the LED bulbs increases as the signal approaches its peak point. 60mm high quality faders provide smooth and accurate channel control. The monitor's output and headphone output work side-by-side, so performers can still listen on their phones while the engineer listens on the studio monitors. Soundcraft EFX8 is ideal for live music performances, recordings, churches and multi-speaker installations. The rack is mounted with an additional set. Large Recommended Images for: Homes of Homes VenuesMusicians and BandsTheatres The Soundcraft EFX™ Series combines all the features of the popular Soundcraft EPM™ mixer with a built-in 24-bit Lexicon digital processor effects, expanding the low-cost, multi-purpose compact range of Soundcraft. The Soundcraft EFX mixer uses the same AudioDNA8 processor that is featured in many of Digitech® and Lexicon suspension equipment, including the esteemed Lexicon MX400 processor. With over 35 years of experience, the Lexicon name is synonymous with the best reverb and handling in the business, providing the best quality effects not usually found in the console at this price level. The Effects section fits neatly into the compact mixing structure, which is available in 8 or 12 mono inputs, both with 2 stereo channels and with effects sent on each channel. There are 12 effects to choose from with the tap tempo feature, 3 effects controls and custom store effect settings. The effects of the channel-level (pre and post) and the Master feature gives the user even more flexibility. The emphasis with Soundcraft EFX is very solid on build quality and sound performance, with easy to understand surface control in line with Soundcraft's professional range. Soundcraft EFX uses a highly transparent GR30 Mic amplifier (designed by Graham Blyth for the company's 30th anniversary and is also used on large professional consoles in the LX71 and GB series). Soundcraft EFX also offers all soundcraft EPM features, primarily customizable aux sends, XLR and L4 metal connector connector connector RCA phono stereo playback inputs and recording outputs, 3-band equalizer with swept mid-mono inputs, 3-band equalizer at 2 stereo inputs, TRS insert sockets, insert inserts on all mono inputs, ten segments of the output and OUTPUT, 67 and 127 size channel frame Built-in 24 bit lexicon digital effects processor 32 FX Settings Tap Tempo and FX settings store features 1 FX send on each Channel 1 customizable XLR-type auxiliary bus and L4 metal connector connector connector RCA phono stereo playback inputs and record outputs 1 A 3-band equalizer with a swept mid-mono input 3-band equalizer on the stereo inputs TRS insert sockets and inserts on all mono inputs Ten segments of LED outputs intuitive and comprehensive solo output of the headphone system Easily routed Custom Karaoke pre-installed The Soundcraft EFX will find itself in many applications, including live music, Record, houses of worship and multi-stage installation.
