The purpose of the PME program is to accelerate and enhance the professional development of the first round of the judge's lawyers. PME is designed to provide an introductory review of the U.S. Navy's mission and navy's JAG corps, history, culture, traditions, management, organization, capabilities, and key legal topics. FISCAL YEAR 2021 PROFESSIONAL DEVELOPMENT STANDARDS Command Services Legal Assistance Military Justice FISCAL YEAR 2021 PROFESSIONAL DEVELOPMENT STANDARDS JAG Investigative Guide This guide is designed to assist commanders and investigators in the administrative investigation process. There is no substitute for working knowledge of Chapter II JAGMAN; this guide is not intended to replace the link to the original document and study it. Rather, this publication gives you a simplified nuts and bolts resume to initially guide your approach to the investigation process. UsN/USMC Commander's Fast Handbook Handbook (KVICMAN) This guide provides procedural information to assist the commander with legal issues in their team. While this guide serves as a useful tool for finding and developing solutions to legal issues, it does not replace the informed advice of the judge's lawyer. This link, like all reference materials, is intended as a guide and is not in itself authoritative legal or regulatory information. Statutes and service rules always overshadow the conflicting instructions that may be contained in this link. In all circumstances, commanders, whether or not to use the manual, are urged to contact the judge's counsel to seek personal guidance in dealing with all legal issues that may arise in the performance of command duties. In 2016, the National Defense Act for fiscal year 2017 was signed, which included the Military Justice Act 2016 (MJA16). MJA16 is a top-to-bottom set of reforms in the military criminal justice system and is complemented by additional changes from Decree 13825, which contained further changes to the Guide to Military Courts. The quick man has been updated accordingly and provided above. Specific pages of the Kvikman that suffer from MJA16 are also available here. The Military Justice Act 2016 (Smart Pack Training Materials) Smart Package Military Justice Act 2016 training and reference materials intended for the staff of judge attorney or attorney command services to deliver as training for convening a body, and is designed to provide initial training for changes to the military criminal justice system as required by the statute. Naval Law Review, published by the Naval School of Justice (NJS), The Naval Law Review encourages frank discussion of relevant legislative, administrative judicial changes in military and related areas of law. View views published articles should only address the views of individual authors and should not express the views of the NJO, the Attorney General of the Judge, the Department of the Navy or any other Agency or Department of the United States. The review of the law of the Navy is published from the funds allocated by the General Counsel of the Judge in accordance with the provisions on naval publications and the press of the C-35. Table Guide to Reviewing The Contents of The Navy Law: To help search for information in the archive, the table below has a few key features: Table Sort: Click on the column title to sort the table on this column. Highlight: Click on any series to highlight the information. Search: You can search for any column for specific information. Select the name of the column in the drop-down box, enter the query and click the search button. You can clean up the search results with the Rest button.
