Content TableIf you're someone who regularly shares your stories on Story, Unfold will be an indispensable app on your mobile device. From developer To Unfold Creative, this is a powerful tool to help you highlight your story and get the attention of others. This app is currently available on both iOS and Android platforms and is fully downloadable. Patterns for StoryWe should be familiar with the Story feature on social networks such as Facebook, Instagram or Snapchat. This feature allows the content you've created to appear in a prominent part of the app's interface. And in 24 hours, that content will disappear automatically. Typically, social media creates built-in effects, as well as tools that help users create an effect for content. But you can clearly see that they are not very impressive, even boring, so it is difficult to meet the needs of the user. With Unfold, you'll become an editing master with no challenging professional skills. More than 10 unique filters and effects including glitter, black and white, glitch and VHS, ... Explore a huge library of up to 200 stunning templates. Your photos will turn into cool work with custom collections including Clasico, Digital Wave, Magazines, Movie Frames, ... Just perform simple manipulations, your photos will reach new heights. There are many special designs. You can find them in the Plus version that users have to pay for use. Plus the version offers you the best experience, but that doesn't mean that free users don't get the best. You can find and download a wide range of themes from cute, classic to colorful. Unfold's text editor supports modern and varied fonts. They make your story more personal and stylish. In addition, various text editing tools, such as font size, alignment, ... allow you to edit the smallest details. Easy to add photos and videos to make history to stand out. The convenient majority of modern apps require users to sign up for an account. But that's not the case with Unfold. Like the default camera on your phone, this app doesn't require Instagram, Instagram, or by email. You just need to turn it on and start creating your art right now. The professional interfaceUnfold is designed in a simple style with two main colors, white and black, but still exudes a professional and elegant look. This helps users experience the best way. What I particularly like about Unfold is that when you first open the interface, it shows your last unfinished work. To start creating a new story, you just need to click on I'm on the screen. Once the editing is complete, you can view the work by clicking on the eye icon. Use the flower pentagon icon if you are still unsatisfied and want to continue editing.
