Your favorite VPN service for Windows and Mac is now available for Android OS. Connect to our high-speed, stable servers in 4 simple steps: Download - Install - Login - Connect We always do our best to make things easier for you. No more moods. Simply download our app, install it on your device, howt and connect to our network of global servers. WASEL Pro completely hides your IP address and replaces it with another American or European one depending on the server you are connected to. This way, your identity will be fully protected. WASEL Pro has outpaced its rival VPN providers in introducing OpenVPN tunneling through SSH on Android without rooting at the touch of a button instead of applying endless customization instructions. Tunneling OpenVPN through SSH is very useful if you're behind a restrictive firewall that detects the installation of customers' VPN and therefore blocks VPN connections. WASEL Pro encrypts your internet traffic. WASEL Pro protects your identity and data; such as passwords, account information, email and credit card information from hackers and sniffers of data on unprotected wireless hotspots in cafes, airports or hotels. Bypassing firewall content restrictions imposed by your providers and geographic blocking without proxy services. Browse the Internet anonymously without restrictions, wherever you are. Access to blocked websites (such as Netflix) for banned social networks (such as Facebook, Facebook, and apps (e.g. Paltalk, Skype, Viber, Camfrog, What's app...)) Connection to WASEL Pro increases internet connection speed because the compressing of OpenVPN Lzo compresses data on our server and then sends it to you, and our app unpacks the data, which speeds up the Internet. Also, when you are connected through our servers you will get priority in downloading from strong servers because you are connected through an American or European network. APK files are raw files of the Android app, similar to how .exe is designed for Windows. APK means Android Kit Package (APK for short). This is the batch file format used by the Android operating system to distribute and install mobile apps. In 4 simple steps, I'll show you how to use bVPN.apk on your phone as soon as you've done it download. Step 1: Download bVPN.apk on your device You can do it right now using any of our download mirrors below. Its 99% guaranteed to work. If you're uploading an apk to your computer, make sure to move it to an android device. Step 2: Allow third-party apps on your device. To install bVPN.apk, you need to make sure that third-party applications are currently included as the source of the installation. Just go to the menu for a set-up of the security zgt; security and check unknown sources to allow your phone to install from sources other than the Google Play Store. On Android 8.0 Oreo, instead of checking the global setting to allow installation from unknown sources, you will be asked to allow your browser or file manager APKs the first time you try to do that. Step 3: Goto Your File Manager or Browser Location Now you will need to find a bVPN.apk file that you just downloaded. If you prefer, you can also download the file manager app here, so you can easily find files on your Android device. Once you've found the bVPN.apk file, click on it and it will start a normal installation process. Click Yes when asked for anything. However, be sure to read everything on the hint screen. Step 4: Enjoy the bVPN now installed on your device. Enjoy! Are APK files safe? Ignore any rumors or site that says otherwise. APK files are usually as secure as the .exe Windows PC file, hence the most important thing to note is that you should always download it from trusted sites. You usually don't have anything to worry about as we have provided some of the safest sites in our Apk download mirrors below. Thanks for reading this tutorial. Download the app below! bVPN v3.0 APK Download Mirrors What's New in bVPN v3.0 Release Date: 2019-11-20 Current version: 3.0 File size: 64.76 MB Developer: iElement B.V Compatibility: iOS 9.0 required or later. or Android KitKat 4.4, Lollipop 5.0, Marshmallow 6.0, Nougat 7.0, Oreo 8.0, Android P 9.0 or later bVPN is the fastest growing VPN service on the market with advanced VPN tunnel technology Smoke Tunnel.
