Download Guests can't ask for updates! Survival of the Raft: Multiplayer game - zenith. In the story, the hero, who will manage the player, survives a plane crash over the ocean. Several other passengers also survived the crash. Combining with them, the user will have to build a raft of available debris and debris, and then constantly upgrade it. While sailing through the vast expanses of the sea, the character will have to catch passing boxes, which may be valuable items. Also, survivors will have to fend off attacks of bloodthirsty sharks and look for food. We bring you a modern survival simulator from VADE, which continues a series of games where most of the time you need to live on a raft. This time, Craft Survival: Multiplayer has the support of multiplayer mode, which can only mean that now you just won't be bored and lonely. In any difficult situation, you can hope for the support of your comrades, who just have to help you. Thanks to the updated mechanics of game gameplay, great graphics, and the ability to communicate with other players, this project is becoming in the ranks of many other popular games that deserve attention.
