SourcesGlossaryName IndexSubject Index Santrock, Life-Span Development Basics, First Canadian Edition is an exciting new resource that offers essential content in a student-friendly format. With shorter chapters and interactive training modules, Santrock 1ce covers all periods of human life in chronological order from the prenatal period to late adulthood and death. Santrock, Life-Span Development Basics, The first Canadian edition is ideal for one semester life-span development courses at colleges and universities, or for any student eager to learn the basics of life expectancy development. Substantial coverage. The first Canadian edition of Santrock offers readability and full content in a short format. The 13 brief chapters are organized in chronological order and cover all periods of human life, from prenatal to late adulthood and death. The quest: A Lifetime Journey gives students the opportunity to apply content from their human development curriculum in real-world scenarios. Students play unique characters of different ages who make decisions by applying key concepts and theories to each age as they negotiate events in an array of authentic environments. In addition, students are exposed to different cultures and intersections of biological, cognitive and socio-emotional processes, analyzing actual behavior and the environment. Each quest has a tiered replayability that allows students to make new choices every time they play - or offering different students in the same different experiences. Fresh opportunities and results shine through on the complexity and differences in real human development. This new experiential learning game includes follow-up questions, questions, in Connect and automatically graded to reach a higher level of critical thinking.Milestones video module. The McGraw-Hill Milestones video series is a powerful tool that allows students to experience life as it unfolds, from infancy to adolescence and beyond. This groundbreaking, longitudinal video series tracks the development of real children as they progress through the early stages of physical, social and emotional development in the first few weeks, months and years of life. Assignableand assessablewithin Connect Psychology, milestones video series also includes videos and interviews with teens and adults to reflect not only the child's development, but development through life. The focus of Canadian research. How do we know that? feature illustrates who, what, when, where and why around Canadian research. The purpose of this feature is to help students understand how research is done. Smartbook 2.0.
