Its white LED HD lighting significantly enhances the color range and provides a dynamic contrast. HDR provides greater image contrast, improves image details and animates bright colors. This is an update to the current TV programming signal standard. Using a unique algorithm, the lighting of the TV panel is adjusted automatically and darkened to increase the peak brightness of the screen objects, hence providing a much wider range of brightness. Micro Dimming analyzes TV content in hundreds of individual zones to adjust brightness and darkness. The image quality just improves and pampers the eyes. You will enjoy a fantastic viewing experience with great contrast, especially in the dark. Enjoy the viewing experience, which is the 2X clarity of standard HD TVs. Delivers an exciting 5.1 surround sound with a dolby decoder that optimizes THE TV sound quality. TCL TV provides an unlimited number of movies, TV series, variety shows, cartoons and sports resources for you to enjoy non-stop with your beloved families. Chromecast lets you sield back your favorite videos, games and apps from your mobile device, in full quality, on your TV. Just pressing the Cast button on the Android or iOS screen is all you need to learn what you love. Then transfer the content and then continue browsing on your phone or tablet. As one of the world's leading internet TV with a huge range of popular content, Netflix has something for everyone. You can watch TV shows recommended just for you, including award-winning Netflix original series, movies and documentaries. With YouTube, you can see that the world is looking at 4K quality-from the hottest

music videos on what's trending in games, entertainment, news and more. Subscribe to channels you love, share with friends and browse on any device.
