As we reflect on the past year, we cannot help but reflect on the unprecedented consequences of the COVID-19 pandemic. ERM has been resilient in the face of this global health and economic challenge, which is a credit to our employees, our customers and suppliers who continue to support us, and my leadership team who have been steadfast and dedicated. More we have started to voluntarily report on our environmental performance with the first Shell report, which covers 1997. We do this to be open and honest, and to show how we contribute to sustainable development. The Shell Sustainability Report 2019, published on 7 April 2020, is our 23rd report. Sony releases the 2020 Sustainability Report to provide a comprehensive and detailed report on non-financial information to a wide range of stakeholders. This report is organized by material themes that form the basis for Sony's long-term value, and it focuses on activities in fiscal year 2019. Sony understands the importance of proper disclosure and communication with stakeholders. From 2019, Sony will release its corporate report to comprehensively transfer financial information and non-financial information, including policies to create medium- and long-term values and business strategies. Sony also posts financial data, non-finance information and business resumes, designed primarily for investors and shareholders on the Investor Relations section of its website.
