A court in Germany ruled that access to some items from the Gutenberg Project collection was blocked from Germany. The Gutenberg Project believes that the Court does not have jurisdiction over this matter, but until the matter is resolved, it will comply. For more information about the German court case, and the reason for blocking the entire Germany rather than individual items, visit the PGLAF information page about the German lawsuit. For more

All IP addresses in Germany are blocked. This unit will remain in place until the legal guidance changes. If your IP address is incorrect, use the Maxmind GeoIP demo to verify the status of your IP address. Project Gutenberg updates its list of IP addresses about monthly. Sometimes a website incorrectly applies a block from a previous visitor. Since the blocks are applied for a moment, you should try again later to visit if Maxmind shows your address as being outside Germany.If your IP address is shown to Maxmind being outside Germany and you have been momentarily blocked, another problem is that some web browsers mistakenly cache the block. Trying another web browser can help. Or, clearing the history of your visits to the site. I have other questions or need to report the error Please email the diagnostic information above to help2020 and pglaf.org (removing the gaps around q) and we will try to help. The software we use sometimes will cause false positives, i.e. blocks that shouldn't have happened. Apologies if this happened because human users outside Germany who use e-books or other site features should almost never be blocked. Last updated: January 28, 2020.
