The names of the birds! A useful list of birds in English with an example of suggestions. Learn these images of birds with names to improve your vocabulary of animals in English. There are thousands of different types of birds, and for this simple reason, it may seem an irresistible task to learn all the names of birds in English. But that doesn't have to be a
problem. A great way to learn the names of birds in English is to try to remember five every day, slowly but surely add new words to your arsenal and gives you an edge during any conversations that relate to birds. The bird names a bird animal with wings, feathers and two legs. Birds, from chickens to crows, are also warm-blooded and lay eggs. List of Birds
Crow Peacock Dove Dove Goose Ostrich Pigeon Turkey Hawk Bald Eagle Crow Parrot Flamingo Seagull Swallow Penguin Swan Owl Stork Bird Images with pictures and example sentences. The crows are black. Peacock In the courtyard
of the peacock. The pigeon pigeon is a symbol of peace. Sparrow Sparrow has a worm in its beak. Goose It was a wild pursuit of geese. Ostrich Ostrich has wings, but it can't fly. Have you ever seen a pigeon? Turkey turkey is little more than chicken. Hawks are birds of prey. Bald eagle Bald Eagle Big White - at the head of the eagle. It's not a crow. It's a
crow. A parrot parrot can imitate human speech. The flamingo was engraved on his shirt. Seagull Tom seems to like just sitting in the dock and watching seagulls. Look at the swallow! Swallows are flying in the dock and watching seagulls. Look at the swallow sare flying in the dock and watching seagulls.
identify because of his red chest. Swan All Swans are white. Owl owls have big eyes. Stork Stork flew slowly past. Woodpecker Woodpecker Woodpecker Decked a hole in the tree. Birds (en) Bird Names 2 Animals in English List of Animal Names in English with
