Talk to team members, keep track of their schedules and attendance, and even update the latest sports news. Team App does control your members piece of cakeHandling Any team can be a handful for managers. You have to keep an eye on their attendance or when a particular player can make it into the game. Managers also need to communicate with everyone to make sure everyone is updated about what is happening to the team. Team App helps you deal with these dilemmas by providing you with useful features such as news and event alerts. Both features send notifications of any important information to all members. Administrators can also create chat rooms or forums where your squad can discuss specific topics. You can import members in bulk along with their email addresses. The platform will also help you keep track of members who may not be available for the game, which will help you find an appropriate temporary replacement. You can also mark each player's attendance at training or training. The Team App file-sharing feature allows you to share important documents with your team by downloading the PDF format. Participants can access the file through the app and download it via the web platform or on their phones. You can also link the video to your team's page. This allows your team to get a training video or where their family can find the latest footage of the game members. The storeAnother team's useful App Team feature is a specialty store for your squad. Here you can sell equipment or uniforms for your team. Families, friends or team fans can also buy tickets as well as merchandise from your team store. One question you may not like is a bare bones service when you compare it to other online stores. But, this feature is well connected with your team's fundraising efforts. Where can you run this program? Phones or tablets with Android 5.0 or better can run Team App. You can also get an Apple version that is compatible with iOS 11.0 or better. The Team app is also available on desktop computers through the website app. Is there a better alternative? Similar team management apps, such as Teamer, can be found in the Play store. This app lets you notify all members of your team and manage team event records with ease. Teamer also allows you to share photos and videos on the page. The command app hits the mark with its useful features. The platform makes it easy to manage your squad, keep them informed, share important files, and more. The only downside you can experience with the app is the lack of a secondary security measure. Otherwise, managers can make full use of the Team App for their squad. If you It? Yes, Team App provides you with a reliable squad management platform. Download the video call has officially become mainstream. Many of today's chat apps, including the eponymous Apple's include the video chat feature. These days, chat apps without some concept video chat feels like it's lagging behind. If you want to hang out hang out With your friends, here are the best video call apps for Android.BBM Price: Free with in-app shopping BBM has had a lot of ups and downs since it was released a few years ago, but it seems to be his duck in a row now. One of the latest feature additions has been the ability for BBM video users to call each other. The feature works as you would expect, and it usually works well for most people. This may not be the best idea for you to switch to BBM, but if you're already using it or you already like it, then there's no real reason to leave it to look at other video calling apps. Get it now on Google Play! Hangouts Price: Free Hangouts is Google's answer to Apple's FaceTime, and it's one of the most popular video calling apps on Android. Hangouts is primarily a messaging service, but you can also use it to send SMS messages. In addition, you can also make voice and video calls at your leisure. Video calls can have up to ten participants and it also runs a cross-platform, so you can call someone on your phone and they can answer on their computer. It's also completely free and preinstalled on many Android devices. Get it now on Google Play! Price: Free with in-app IC has been around for a very long time. Until then, in fact, that it was a competitor to AOL Instant Messenger before it bought AOL in the late 90s. These days, IC' is still one of the most solid video calling apps that also has a built-in messenger service. The video call works pretty well, and messaging side things are also good. It brags about being able to work on 3G web connections and even comes with password locks for security. Get it now on Google Play! JusTalkPrice: Free JusTalk is one of the few video call apps that focuses on video calls first and other features second. It is cross-platform and uses your Facebook account to help you quickly connect to friends and family. Some of the other features include group chat, free phone calls according to the data, and it even has things like drawing in video chat and games. Normally, if you're using something like Hangouts or Skype already, there's not much motive to leave something like this. However, if you want something that is essentially just a video call app, this is not a bad choice. Get it now on Google Play! KakaoTalk Price: Free with In-App Shopping KakaoTalk is a very popular messaging service that boasts more than 150 million users worldwide. It's also a decent video call app. Most applications are to use, and this includes messaging and video calls with add-ons is the only thing available to purchase. It also comes with voice filters, group chats, and even Android Wear support. You can also add friends using their BlackBerry PIN if they have one. Get it now on Google Play! LINE Price: Free to Buy in-app LINE is another hugely popular popular a platform that claims to have an astounding 600 million active users worldwide. As it turns out, he also does video chatting. Much like Hangouts, there is cross-platform support, so you can call using your computer or mobile phone. Along with this, you get instant messages, social networking features, group chats, and more. Get it now on Google Play! Skype Price: Free. of course, everyone knows about Skype. It's one of the most famous names in the video call out there and, as you'd expect, it has an Android app. It boasts a user base of 250 million people, which is pretty good. The app has undergone a lot of positive changes over the last couple of years as well. It has a decent service of text messages and voice calls along with video chat capabilities. It's also cross-platform, so you can use it pretty much anywhere. Get it now on Google Play! Tango Price: Free to Buy in the App Tango was one of the first really good video chat apps available on Android. Over the years, it has been added and improved, leading to a full-scale messaging service complete with video and voice call. It also has an opening feature that allows you to find new people to talk to if you are bored or lonely. There are also a lot of group chats you can log in to talk to people about similar interests. It's unique and interesting to use. Get it now on Google Play! Viber Price: Free with In-app shopping Originally, Viber was a unique app that was billed as a great app for free phone calls. Since then it has improved and been added and, like Tango, has evolved into a full-fledged messaging service complete with voice and video calls. You can also buy Viber Out Credits to call non-Viber users on regular phone numbers if you are looking for a way to do so. It also has Android Wear support, social media support and cross-platform support. Get it now on Google Play! WeChat Price: Free with in-app shopping Last and of course not least in our WeChat list. It is another very popular messaging service with over 100 million installations to date. It has the standard stuff we expected from the apps on this list, including solid video and voice call along with messages. WeChat also allows you to make new friends using a location-based feature called Friend Radar, and it comes with a desktop app. Get it now on Google Play!
