October 2, Monday: Lesson 4: Determining what logic is used? Inductive or deductive? (Choose a flash card or test at the top of the page) Card quiz Tuesday: Test Review: unit_1_test_review.docx Answer to review (p. 1, p. 2) Wednesday: Test for deductive reasoning next day: Start Group 2: Points, Lines Of Planes; Vocab grid; homework with a sick child today. Please fill as much as you can on the vocab grid. The submarine must cross at least one with you. Try your homework and check out some online practice. We'll all be there tomorrow. View the vocabulary by watching this video Online practice: Finish notes from Thursday; Week 10/9-10/13 Monday: Practice boards on correct drawing and naming geometric drawings; Cross the intersection of 2 planes and cross 2 points. Homework: Figure chart practice Online practice: /www.sheppardsoftware.com/mathgames/geometry/shapeshoot/line_shoot.htm www.ixl.com/math/geometry/lines-line-segments-and-rays Tuesday: Segments and their measure. Segment supplement postulate. Notes Wednesday: Vocab check; Homework: Segment Adding Worksheet Answers on the sheet: 1. 13 2. 11 3. 24 4. 11 5. x 7 6. x-10 7. ST-11 (need to be decided for x first) 8. CD-79 (must be decided for x first) 9. HI-69 (need to be decided for x first) 10. AB80 11. BC-6 12. BC 93 13. ABZ75 14. BC 3715. AB-85 Thursday: Another day at S.A.P.; leaf Friday: Notes-segment bisectors and middle point. Exit sliding. What does segment congruence mean? Week 10/16-10/19 (PD Friday, no school) Monday: Segment of two-sector practice. Key Tuesday answer: -Middle point and distance formula on plane coordinates notes; Homework: zombie apocalypse sheets: 1. 24.1 feet 2. (7,6) 3. 33 feet 4. (-15,7.5) 5. 27.7 feet 6. 15.3 feet 7. (-5.5, 7) 8. 37.7 feet 9. (-9,3.5) I HAVE TO SHOW MY WORK!! Wednesday: The beginning of algebraic evidence Gest: quiz on S.A.P., distance formula, middle point, midpoint formula. Week 10/23-10/26 (no school Friday) Monday: Continue algebraic evidence; homework Tuesday: Evidence Segment; Home Day 1 Wednesday: Continuation of the Proofs Thursday segment: Working Day on The Evidence segment and algebraic evidence; Choose from 4 of the 9 problems The answer key No school Friday. Students are given a schedule with zombies on it and a corresponding sheet. Students should carefully read the clues on the sheet, find the coordinates of the correct zombies on the graph, and then calculate the middle or distance based on what the question asks. Nine mid-point/distance questions are included in this activity. Distance learning? No problem! This activity now includes the google Forms digital option! Explore Distance Learning in my store for more digital resources Try ways to use PDF Printable with all the questions on one page PDF Printable with one question on the page Google forms of digital activity---gt;watch more and video previews to see the activity in more detail qt;---Syamy tips include: Your science teacher, Mr. Awesome, can do something ... Including kill zombies! Looks like he was able to use his amazing chemistry skills to develop a cure. If only he could use the medicine on himself before it was too late. Well good... medicine lies halfway between you and him. What are the treatment coordinates? While you are planning your escape you will notice your girlfriend Abi is moving towards you. Unfortunately, it doesn't look like she's in a love-dovey mood... It's more in the food-your-brain mood. How many feet will Abi have to travel before she reaches you?
